FOREWORD

This booklet is intended to provide guidance for those accountants employed by water and sewer providers to perform agreed-upon procedures as authorized by Ark. Code Ann. § 14-234-119. The code provides that sewer or water systems providing services for at least one hundred (100) but less than two thousand (2,000) service connections shall obtain an annual audit or an annual agreed-upon procedures and compilation report. Any sewer or water system having at least two thousand (2,000) service connections shall obtain an annual financial audit of their system. The agreed-upon procedures and compilation engagements shall be conducted in accordance with standards established by the American Institute of Certified Public Accountants and subject to minimum procedures prescribed by the Legislative Joint Auditing Committee. Those procedures are listed in this booklet. Ark. Code Ann. §§ 14-234-119 – 14-234-122 are included as a part of this booklet and provide specific guidance concerning the requirements imposed on the accountants performing these reports.
