Independent auditor's report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with <i>Government Auditing Standards</i>	14 - 15

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Tumbling Shoals Public Water Authority

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the accompanying financial statements of Tumbling Shoals Public Water Authority, as of and for the years ended September 30, 2024 and 2023, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tumbling Shoals Public Water Authority, as of September 30, 2024 and 2023, and the changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Tumbling Shoals Public Water Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tumbling Shoals Public Water Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Tumbling Shoals Public Water Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tumbling Shoals Public Water Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Required Supplementary Information***

Management has omitted the Management's Discussion and Analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operating, economic, or historical context. Our opinion of the basic financial statements is not affected by this missing information.

Tumbling Shoals Public Water Authority is subject to the reporting requirements of the audited schedule of expenditures of federal awards for the year ended September 30, 2024, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. We were not engaged to audit the schedule of expenditures of federal awards, and, therefore, do not express an opinion or provide any assurance related to the schedule of expenditures of federal awards.

#### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2025, on our consideration of the Tumbling Shoals Public Water Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tumbling Shoals Public Water Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tumbling Shoals Public Water Authority's internal control over financial reporting and compliance.

The accompanying notes are an integral part of these financial statements.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023

1) NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Tumbling Shoals Public Water Authority ("The Authority") was incorporated as Tumbling Shoals Water System, a non-stock, not-for-profit corporation under the laws of Arkansas on October 13, 1976. The Authority was organized to associate its members for their mutual benefit of maintaining and operating a private water system for supplying water to its members. The Authority is governed by a board of directors. On October 8, 2001, the Authority reorganized as a Public Water Authority under the laws of Arkansas.

Basis of accounting

The financial statements of the Authority are prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) as applicable to enterprise funds of governmental entities using the economic resources measurement focus and the accrual basis of accounting. An enterprise fund is a proprietary fund type used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs, including depreciation, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. The Governmental Accounting Standards Board (GASB) is responsible for establishing US GAAP for state and local governments through its pronouncements (Statements and Interpretations).

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Net position and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions and regulatory requirements. Accordingly, net position of the Authority and changes therein are classified and reported as follows as required by GASB:

*Unrestricted Net Position* - consists of all other fund position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

*Restricted Net Position*— Component of net position that consist of amounts which have external constraints placed on its use imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

*Net investment in Capital Assets*- consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowing that is attributable to the acquisition, construction, or improvement of those assets.

Adoption of New Accounting Standard

On October 1, 2020, the Authority adopted GASB Accounting Standards Statement 87, Leases, which improves accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognizing as inflows or outflows of resources based on payment provisions. The Authority did not have any leases subject to the new standards and therefore, there was no impact to net position, revenues, or expenses as a result of applying GASB 87 for the year ended September 30, 2024, and there have been no significant changes to the Authority's business processes, systems, or internal controls as a result of implementing the standard.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income taxes

The Authority is a political subdivision of the State of Arkansas and is exempt from federal income taxes.

Management has evaluated the Association's tax position and concluded the Association had taken no uncertain tax positions that require adjustment to the financial statements to comply with the provision of this guidance. With few exceptions, the Association is no longer subject to income tax examinations by the United States federal, state or local authorities for years before 2021.

Concentration of Credit Risk

With the exception of securities that are direct obligations of the U.S. government, deposit accounts that are fully insured by the FDIC or fully collateralized, and money market mutual funds with an underlying investment portfolio that is limited principally to U.S. government obligations, the Authority's policy states that no more than 20% of the total balance may be invested in any single investment or in securities of a single obligor.

Custodial Credit Risk

For a deposit or investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of the deposits, investments or collateral securities that are in the possession of an outside party. State statutes require the Authority to maintain cash balances on deposit with financial institutions located within the State and that account balances in excess of amounts insured by the Federal Deposit Insurance Corporation (FDIC) be collateralized by the financial institution in accordance with state statutes. All of the Authority's deposit account balances are fully insured by the FDIC or secured by collateral. All investments are held in the name of the Authority by the Authority's agent.

Concentration of Vendor Risk

The Authority purchased \$920,002 and \$908,767 of water from Heber Springs Water for the years ended September 30, 2024 and 2023, respectively. These purchases accounted for 100% of the water purchased by the Authority. Management believes no significant risk is present under this arrangement.

Cash and cash equivalents

Cash and cash equivalents include all short term highly liquid investments with original maturities of three months or less which are readily convertible to cash.

Accounts receivable

Accounts receivable consist of amounts due for water sales and various miscellaneous charges. Meter deposits are considered to adequately cover past due accounts. Sales of water are made on open account to customers and are collateralized to the extent of each customer's meter deposit. Only balances over 365 days are recorded as bad debt and allowance for doubtful accounts. Bad debt expense was \$20,311 and \$11,562 for the years ended September 30, 2024 and 2023, respectively.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023

Inventories

Inventories consist primarily of maintenance materials and are valued at the lower of cost (first-in, first-out) or market.

Property and equipment

Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Interest expenditures incurred on construction projects are capitalized as a cost of construction. Depreciation is computed using primarily the straight-line method over the following estimated useful lives:

Equipment and Vehicles	5 – 10 years
Plant and equipment	5 – 50 years

Depreciation expense was \$213,491 and \$211,527 for the years ended September 30, 2024 and 2023, respectively.

Revenue Recognition

Revenue is recognized each month for the sales of water used by the Authority's customers and for services rendered at the time of completion of the service. Operating revenues consist of charges for water and other fees billed to customers. Non-operating revenues consist of interest income and miscellaneous income. Expenses are recognized when incurred. Accounts receivable and revenues reported on the Authority's financial statements include an estimate of charges for services provided but unbilled at year end.

Sales Taxes

Sales taxes charged to the Authority's customers are recorded as accounts receivable and sales tax payable when charged to customer. When these amounts are remitted to the appropriate taxing authority, the sales tax payable is reduced. When the customer pays the bill the accounts receivable is reduced.

Meter deposits

Meter deposits consist of amounts collected from customers to secure against non-payment of the customer's final bill. The deposit required for homeowners and renters is \$100.

Investments

Governmental Accounting Standard No. 31 (GASB 31), Accounting and Financial Reporting for Certain Investments and for External Investment Pools, requires that certain investments with remaining maturity of one year or more at the time of purchase be reported at fair market value. In accordance with GASB 31, investments are recorded at fair market value. Gains and losses on investments are determined by specific identification. Realized gains and losses on investments held more than one year and sold in the current year were included as a net change in the fair value of investments reported in prior years and the current year. The Authority is authorized to invest per the discretion of the Board of Directors. As of September 30, 2024 and 2023, investments consisted entirely of certificates of deposits with banks located in the United States of America.

Subsequent Events

Management has evaluated subsequent events through June 20, 2025, the date which the financial statements were available to be issued.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
 NOTES TO FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2024 AND 2023

2) RESTRICTED ASSETS

Certain loan agreements require the Authority to fund loan reserve accounts. These reserve accounts are restricted in use and require prior approval of Rural Development, CoBank and Arkansas Natural Resources Commission before any expenditure is made from the reserve accounts. As of January 2024, per Arkansas Code Section 14-234-802 of Act 605, the Authority is also required to deposit 5% of annual revenues into a reserve account. Expenditures from this reserve are not subject to prior approval; however, the funds must be used for infrastructure improvement. Deposits into this reserve account also count toward the Authority's short lived asset reserve requirements. As of September 30, 2024 and 2023, minimum reserve requirements were \$612,342 and \$481,377, respectively. The Authority has funded the reserves as follows:

	<u>2024</u>	<u>2023</u>
Short lived asset reserve	\$ 347,208	\$ 317,457
Debt reserve	163,920	163,920
Act 605 improvement reserve	101,214	-
 Total debt reserves	 <u>612,342</u>	 <u>481,377</u>
 Meter deposits	 145,648	 117,057
 RRA reserve account	 <u>292,269</u>	 <u>80,508</u>
 Total restricted assets	 <u>\$ 1,050,259</u>	 <u>\$ 678,942</u>

3) INVESTMENTS

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The three levels of the fair value hierarchy are as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs (other than quoted prices included within Level 1) that are observable for the asset or liability – either directly or indirectly.
- Level 3: Unobservable inputs – market data are not available and are developed using the best information available about the assumptions that market participants would use when pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023

INVESTMENTS (CONTINUED)

The Authority has the following fair value measurements as of September 30, 2024:

	Fair Value Measurement			
	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<b>Restricted:</b>				
Money Market Mutual Funds	\$ 198,638	\$ 198,638	\$ -	\$ -
Certificates of Deposit	<u>387,848</u>	<u>387,848</u>	-	-
<b>Total Investments</b>	<b><u>\$ 586,486</u></b>	<b><u>\$ 586,486</u></b>	<b><u>\$ -</u></b>	<b><u>\$ -</u></b>

The Authority had the following fair value measurements as of September 30, 2023:

	Fair Value Measurement			
	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<b>Restricted:</b>				
Money Market Mutual Funds	\$211,061	\$ 211,061	\$ -	\$ -
Certificates of Deposit	<u>320,908</u>	<u>320,908</u>	-	-
<b>Total Investments</b>	<b><u>\$ 531,969</u></b>	<b><u>\$ 531,969</u></b>	<b><u>\$ -</u></b>	<b><u>\$ -</u></b>

	<u>2024</u>	<u>2023</u>
Reconciliation to statements of net position:		
Total investments as presented in the schedule above	\$ 586,486	\$ 531,969
Less amounts included in cash and cash equivalents	<u>(198,638)</u>	<u>(211,061)</u>
Total investments as presented in the statements of net position	<b><u>\$ 387,848</u></b>	<b><u>\$ 320,908</u></b>

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Authority manages its exposure to declines in fair values by limiting investments to securities with a maturity of not more than 5 years from the date of purchase.

TUMBLING SHOALS PUBLIC WATER AUTHORITY  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2024 AND 2023

Credit Risk

Credit risk is the risk that the issuer or other counterparty will not fulfill its obligations. To minimize exposure to credit risk, the Authority's investment policy specifies the types of securities in which the Authority may invest. In general, the following investments are considered permissible investments:

- direct obligations of the United States government
- open end, government obligation money market mutual funds
- obligations that are fully guaranteed, secured or insured by United States government agencies, instrumentalities and government-sponsored entities
- repurchase agreements that are fully collateralized by direct obligations of the United States government and general obligations of any state of the United States or political subdivision thereof
- general obligations of the states of the United States and of the political subdivisions, municipalities, commonwealths, territories or insular possessions thereof
- pre-funded municipal bonds, the principal and interest of which are fully secured by the principal and interest of a direct obligation of the United States government
- revenue bond issues of any state of the United States or any municipality or any political subdivision thereof

4) PROPERTY AND EQUIPMENT

Capital asset activity for the year ended September 30, 2024, was as follows:

	<u>2023</u>	<u>Additions</u>	<u>Transfers</u>	<u>Disposals</u>	<u>2024</u>
Land	\$ 44,152	\$ -	\$ -	\$ -	\$ 44,152
Plant and equipment	8,980,691	135,808	-	-	9,116,499
Construction in progress	11,855	968,314	-	-	980,169
Equipment and vehicles	<u>254,815</u>	<u>104,360</u>	-	<u>(99,737)</u>	<u>259,438</u>
	9,291,513	1,208,482	-	(99,737)	10,400,258
Less accumulated depreciation	<u>(6,156,115)</u>	<u>(213,491)</u>	-	<u>85,058</u>	<u>(6,284,548)</u>
	<u>\$ 3,135,398</u>	<u>\$ 994,991</u>	<u>\$ -</u>	<u>\$ (14,679)</u>	<u>\$ 4,115,710</u>

Capital asset activity for the year ended September 30, 2023, was as follows:

	<u>2022</u>	<u>Additions</u>	<u>Transfers</u>	<u>Disposals</u>	<u>2023</u>

**Supplemental Information**

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors  
Tumbling Shoals Public Water Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Tumbling Shoals Public Water Authority, as of and for the year ended September 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise Tumbling Shoals Public Water Authority's basic financial statements, and have issued our report thereon dated June 20, 2025.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Tumbling Shoals Public Water Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tumbling Shoals Public Water Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Tumbling Shoals Public Water Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Tumbling Shoals Public Water Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
