#### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Nature of Activities

The Ludwig Water Users Association, Inc. is a nonprofit corporation established as a provider of water to rural areas in Johnson County, Arkansas. The Association's primary funding source is water sales.

#### (b) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Financial statement presentation follows the recommendations of the FASB ASC 958-210-45 which requires reporting information regarding financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions. Externally restricted assets may only be utilized in accordance with the purposes established by the restricting party. Donor restricted support whose restrictions are met in the same reporting period are reported as net assets without donor restrictions. Net assets without donor restrictions may be used in achieving any of the Association's organizational purposes. There were no net assets with donor restrictions at December 31, 2022.

(c) Income Taxes

The Association is exempt from Federal income taxes under Internal Revenue Code Section 501(c) (12) and therefore has made no provision for Federal income taxes. The Association has no excise or unrelated business income.

#### (d) Cash Flows Statement

For purposes of the statement of cash flows, Ludwig Water Users Association, Inc. considers all checking accounts, savings accounts and certificates of deposits to be cash equivalents.

(e) <u>Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(g) Depreciation

Property and equipment acquisitions in excess of \$500 are capitalized. Property and equipment are carried at cost. Depreciation is computed on the straight-line method over the estimated useful lives of the assets. Depreciation expense for 2022 was \$43,150. Rates used for computing depreciation are as follows:

Assets	Rate
Distribution system	2.00 %
Office Equipment	2.00 %
Building	2.00 %
Maintenance Equipment	10.00-25.00%

#### (h) Accounts Receivable

Accounts receivable are considered past due if the customers' bill is not fully satisfied by the 10<sup>th</sup> day of the month. After the 10<sup>th</sup> has passed, the customer is then charged a late fee. Failure to pay the total bill within 30 days will cause the water service to be discontinued and the addition of a \$40 reconnect fee. Subsequent violations of 3 in one year carry an additional \$100 reconnect fee. Past due accounts are reviewed and written off on an annual basis for those accounts that have been determined as uncollectible.

#### (2) CASH DEPOSITS

As of December 31, 2022, the cash book balance of Ludwig Water Users Association, Inc. was \$653,559 and the bank balance was \$658,995. Of the bank balance, \$462,633 was covered by Federal Depository Insurance and deposits collateralized by pledged securities were \$196,362.

#### (5) <u>CONCENTRATIONS</u>

Concentrations that could affect the operations of the system are the small geographic area of the system's customers and one supplier of their water. Clarksville Connected Utilities is the supplier of all the water purchased.

#### (6) INCOME TAXES

The Ludwig Water Users Association is a not-for-profit organization that is exempt from income taxes under Section 501(c)(12) of the Internal Revenue Code. As a result, no provision for current or deferred income tax liability is recognized in the Association's books and records. The Association evaluates and accounts for uncertain tax positions in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. This standard requires certain disclosures about uncertain income tax positions. When tax returns are filed, it is probable that most tax positions would be sustained upon examination by taxing authorities. However, it is also possible that some positions might be subject to uncertainty. The Association evaluates any uncertain tax positions using the provisions of ASC 450, Contingencies. Accordingly, a loss contingency is recognized when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. Interest and penalties, if any, resulting from any uncertain tax positions required to be recorded by the organization would be presented in other expenses in the statement of activities. Management does not believe that it has engaged in any activity that would result in an uncertain tax position. As a result, management does not believe that any uncertain tax positions currently exist and no loss

contingency has been recognized in the accompanying financial statements. The Association has filed all applicable tax returns. Federal and state income tax statutes dictate that tax returns filed in any of the previous three reporting periods remain open to examination. Currently, the Association has no open examination with either the Internal Revenue Service or state taxing authorities.

#### (7) <u>SUBSEQUENT EVENTS</u>

Subsequent events have been reviewed through October 30, 2023 which is the date that the financial statements were available to be issued.
