#### INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and Board of Directors City of Barling Barling, Arkansas

We have audited the accompanying financial statements of the City of Barling, Arkansas Water and Sewer System, which comprise the Combined Statements of Net Position as of December 31, 2016 and 2015, and the related Combined Statements of Revenues, Expenses and Changes in Fund Net Position, and Cash Flows for the years then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the City of Barling, Arkansas Water and Sewer System, as of December 31, 2016 and 2015, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Schedules of Maintenance and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information in such schedules has been subjected to the auditing procedures applied in the audits of the basic financial statements and in our opinion is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**Emphasis of Matter** 

As discussed in Note 1, the financial statements present only the City of Barling, Arkansas Water and Sewer System and do not purport to, and do not present fairly the financial position of the City of Barling, Arkansas as of December 31, 2016 and 2015, the changes in its financial position, or where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

## NOTE 1 - NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Barling provides water and sewer service to the residents and businesses of Barling, Arkansas and surrounding areas. The revenue to finance the System is provided through user charges based on usage and monthly service charges.

## **USE OF ESTIMATES**

The System's management uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

## CRITERIA USED IN DETERMINING THE SCOPE OF THE REPORTING ENTITY FOR FINANCIAL PURPOSES

The City of Barling Water and Sewer System is a component unit of the City of Barling. As such, a presentation of financial position and results of operations in accordance with accounting principles generally accepted in the United States of America for the City of Barling would require inclusion of the City of Barling Water and Sewer System in the financial statements of the City of Barling. The City of Barling exercises oversight responsibility over the City of Barling Water and Sewer System. Factors considered in determining this relationship were as follows:

- a. Financial interdependency
- b. Selection of governing authority
- c. Designation of management
- d. Ability to significantly influence operations
- e. Accountability for fiscal matters

These financial statements present only the City of Barling Water and Sewer System and are not intended to present fairly the financial position and results of operations of the City of Barling in conformity with accounting principles generally accepted in the United States of America.

### **BASIS OF ACCOUNTING**

The City of Barling Water and Sewer System maintains its books on a modified cash basis. The books have been converted to an accrual basis for audited financial statement presentation. Under the accrual basis of accounting, all assets and liabilities (whether current or noncurrent) associated with the activities of the water and sewer system are recorded on its statement of net position.

Revenues are recognized when earned and expenses are recognized when incurred. The System implemented GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements. This pronouncement incorporates the FASB, APB and ARB pronouncements issued on or before November 30, 1989, which do not conflict with or contradict GASB pronouncements. The implementation of this pronouncement had no significant effect on the financial statements.
