Independent Auditor's Report

Waterworks and Sewer Commission
City of Booneville:

Opinion

We have audited the accompanying financial statements of the City of Booneville Water and Sewer Department which comprise the statements of net position as of December 31, 2024 and 2023 and the related statements of income and expense and changes in net position and cash flows for the years then ended and the related notes to the financial statements.

As discussed in note 1, the financial statements present only the City of Booneville Water and Sewer Department and are not intended to present fairly the net position of the City of Booneville, Arkansas, and the results of its operations and cash flows of its proprietary fund types and nonexpendable trust funds, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the City of Booneville Water and Sewer Department, as of December 31, 2024 and 2022, and changes in net position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of City of Booneville Water and Sewer Department and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Booneville Water and Sewer Department's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we

- * Exercise professional judgment and maintain professional skepticism throughout the audit.
- * Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- * Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Booneville Water and Sewer Department internal control. Accordingly, no such opinion is expressed.

- * Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- * Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Booneville Water and Sewer Department's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Booneville Water and Sewer Department's basic financial statements. The supplemental information, disclosed in compliance with requirements for audits of Revolving Loan Funds for Municipalities' Accounting Records, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 24, 2024 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulation, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements

December 31, 2024 and 2023

(1) ACCOUNTING POLICIES

(a) Nature of Operations

The City of Booneville Water and Sewer Department provides water and sewer services to the general public located in the City of Booneville, Arkansas and water services to surrounding areas and to other municipalities.

Booneville Water and Sewer Department is a municipally operated system and is governed by the Booneville Water Commission and the City Council of the City of Booneville, Arkansas. The City of Booneville Water and Sewer Department is a proprietary fund type used to account for activities conducted for the public (enterprise fund). The System applies all Governmental Accounting Standards Board (GASB) pronouncements as well as the Financial Accounting Standards Board (FASB) pronouncements issued on or before November, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

(b) Basis of Presentation

The financial statements of the Department have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units in the United States. The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles for governments within the United States.

In accordance with GAAP, the Department's operations are accounted for as a business type activity. In this regard, the Department follows the economic resources measurement focus and the accrual basis of accounting, whereby income is recognized when it is earned and becomes measurable, and expenses are recorded when they are incurred, irrespective of when paid.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(d) Cash

For purposes of the statements of cash flows, the Department considers cash to be all cash funds in banks, including certificates of deposit.

(e) Receivables

All receivables are reported at their net realizable value. Balances not expected to be collected are reserved in an allowance for credit losses and charged to bad debt expense. The Department assesses late fees on accounts determined to be past due but does not assess finance charges on such accounts. The Department collects a customer deposit when initiating service. The customer deposit may be applied to outstanding account balances at the termination of service.

(f) Supplies Inventory

Supplies inventory consists of pipe, pipe fittings, valves, chemicals, and related supplies used in the maintenance and expansion activities of the Department. Inventory is stated at the lower of cost or market with costs determined using average cost methods.

(g) Property, Plant and Equipment

Property, plant and equipment are recorded at cost including interest on funds borrowed to finance the construction of major capital additions, as applicable. Depreciation on property, plant and equipment is calculated on a straight-line basis over the estimated useful lives of the assets ranging from 5 to 99 years. Major additions and improvements are capitalized and routine maintenance and repairs are charged to expense as incurred.

(h) Regulatory Environment

The quality of water emitted from the sewer treatment plant is regulated by the Environmental Protection Agency and the Arkansas Health Department. The quality of water furnished to customers is subject to the requirements of the Environmental Protection Agency under the Safe Drinking Water Act and the Arkansas Health Department.

(i) Income Tax

The City of Booneville Water and Sewer Department is a municipally owned system that is exempt from federal and state income tax.

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(j) Fair Value of Financial Instruments

The carrying value of cash in banks, accounts receivable, accounts payable and accrued expenses, approximate fair value due to the relatively short maturity of these instruments. The amounts shown for bonds and notes payable approximate fair value since these instruments are carried at prevailing market interest rates.

(k) Leases

The Department determines if an arrangement is or contains a lease at inception. Leases are included in right-of-use (ROU) assets and lease liabilities in the statement of net position. ROU assets and lease liabilities reflect the present value of the future minimum lease payments over the lease term. Operating lease expense is recognized on a straight-line basis over the lease term. The Department does not report ROU assets and lease liabilities for short-term leases (leases with a term of 12 months or less). Instead, the lease payments of those leases are reported as lease expense on a straight-line basis over the lease term.

(2) RESTRICTED CASH

At December 31, 2024 and 2023, the Department had restricted cash shown as follows:

	<u>2024</u>	<u>2023</u>
Customer deposit account	\$ 117,261	113,680
Water development fund	1,388,575	1,255,297
Other reserve accounts:		
Bond fund	17	16
Depreciation fund	<u>173,892</u>	<u>168,112</u>
	<u>\$ 1,679,745</u>	<u>1,537,105</u>

The water development fund was established by the Department for the future development of new water sources and treatment operations. The depreciation fund is established as a reserve which is used to maintain current property, plant and equipment infrastructure of the Department. Other restricted funds include funds set aside for customer deposits and bond repayment purposes.

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(3) PROPERTY, PLANT AND EQUIPMENT

The cost of property, plant and equipment is as follows:

	<u>2024</u>	<u>2023</u>
Sewer system	\$ 3,926,358	3,898,053
Water treatment plant	1,464,449	1,465,999
Water distribution system	1,996,494	1,996,494
Reservoir	1,720,001	1,720,001
Equipment	2,155,943	2,067,295
Building	295,540	295,540
Projects in progress	461,903	321,534
Land	<u>95,502</u>	<u>95,502</u>
	<u>\$ 12,116,190</u>	<u>11,860,418</u>

Depreciation expense was \$264,570 and \$257,580 for 2024 and 2023, respectively.

(4) LONG-TERM NOTES AND BONDS PAYABLE

Long-term notes and bonds payable collateralized by pledge of water and sewer revenue consisted of the following at December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
First Western Bank, note payable, due in monthly installments of \$2,038, including interest at 3.95% per annum. The note was collateralized by equipment and matured on November 30, 2024.	<u>-</u>	<u>18,898</u>
	-	18,898
Less current installment of notes and bonds payable	<u>-</u>	<u>18,898</u>
	<u>\$ -</u>	<u>-</u>

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(5) CONCENTRATION OF RISK

The City of Booneville Water and Sewer Department services customers in City of Booneville, Arkansas, the surrounding area, and other municipalities. All of the accounts receivable balance reported herein is from these customers and municipalities.

All funds are deposited in financial institutions insured by the FDIC. Deposits in excess of the insured amount total approximately \$4,214,000 and are collateralized by an irrevocable standby letter of credit issued by the Federal Home Loan Bank of Dallas.

During 2024, the Department purchased approximately 71% of its water treatment chemicals from one vendor. Management reviews its vendor relationships on a regular basis to assess quality and continuity of service in maintaining a reliable source of necessary supplies and materials. Other vendors are available if the current vendors are unable to supply necessary treatment chemicals.

(6) EMPLOYEE BENEFIT PLAN

The Department has a deferred compensation plan, in which all current employees are eligible to participate. Contributions are made by the employees through payroll deductions throughout the year. At the discretion of the Commission, additional contributions may be made to the employees' accounts. The Department contributed \$26,061 and \$26,259 in 2024 and 2023, respectively, to the employees' plan.

(7) DEFERRED GRANT FUNDING

During 2014, the Department received a grant to install flouridating equipment in its water treatment plant. The terms of the grant include a provision whereby if the Department elects to voluntarily discontinue the use of such equipment within ten years of the date of the grant agreement, a proportional balance of the grant will be refundable to the grantor. Management has elected to recognize the grant over the ten year conditional period based on the terms of the grant. Grant revenue recognized during 2024 and 2023 totaled \$4,673 and \$8,010, respectively.

(8) OTHER OPERATING INCOME

At December 31, 2024 and 2023, the Department had other operating income as follows:

	<u>2024</u>	<u>2023</u>
Sanitation fees from the City of Booneville	\$ 10,058	8,354
Water development	91,251	85,947
Meter fees	117,015	117,180
Service charges	8,686	8,048
Late charges	32,287	22,215
Other	<u>18,780</u>	<u>17,553</u>
Total other operating income	<u>\$ 278,077</u>	<u>259,297</u>

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(9) INDUSTRY PARTICIPATION AND PROMOTION

In an effort to promote area industry growth, the City of Booneville and the Department will combine resources to assist in the promotion of community development for infrastructure utilized by private industry, commercial enterprises and other city based projects. During 2024, the Department contributed \$100,000 to the City of Booneville for water park and related improvements. The Department contributed \$2,500 funding to the area chamber of commerce in support of local promotional activities during 2024 and 2023.

(10) REVENUE RECOGNITION, CONTRACT ASSETS AND CONTRACT LIABILITIES

The Department recognizes revenue when performance obligations are satisfied. Generally, the Department's performance obligations are satisfied, control of water and sewer services are transferred, and revenue is recognized on a monthly basis after the service has been performed. Because customers are invoiced at the time service has been performed and the Department's right to consideration is unconditional at the time, the Department currently does not maintain contract asset balances. For setup of customer accounts, any amounts that have been collected for services, where control has not transferred, are recorded as customer deposits (contract liabilities). During 2024, the Department implemented a water rate increase based on a recent water rate study. Management assessed the nature of prospective infrastructure and operating needs in its adoption of the new rate structure.

(11) RECENT ACCOUNTING GUIDANCE

The Department adopted Accounting Standards Update (ASU) No. 2016-02, Leases, which requires lessees to recognize leases on the statement of net position and disclose key information about leasing arrangements. As a result of implementing ASU No. 2016-02, the Department recognized ROU assets of \$10,483 and lease liabilities totaling \$10,483 in its statement of net position at lease inception in 2023. The lease liability totaled \$7,021 at December 31, 2024.

(12) LEASES

The Department evaluated office copier contracts to determine which met the criteria of a lease. The ROU assets represent the Department's right to use underlying assets for the lease term, and the lease liabilities represent the Department's obligation to make lease payments arising from these leases. The ROU assets and lease liabilities, all of which arise from operating leases, were calculated based on the present value of future lease payments over the lease terms. The Department has made an accounting policy election to use an incremental borrowing rate to discount future lease payments. The incremental rate used to calculate lease liabilities as of December 31, 2023, was 6% (the inception of the lease). The Department's operating lease consists of leases for office equipment. For the years ended December 31, 2024 and 2023, total operating lease cost was \$2,774 and \$2,318, respectively. As of December 31, 2024, the remaining lease term for the Department's operating leases was approximately 3 years.

CITY OF BOONEVILLE WATER AND SEWER DEPARTMENT

Notes to Financial Statements, Continued

(12) LEASES (Continued)

Cash paid for operating leases for the year ended December 31, 2024 was \$2,643. There were no noncash investing and financing transactions related to leasing. Future maturities of lease liabilities are presented in the following table, for the fiscal years ended December 31:

2025	\$ 2,440
2026	2,440
2027	2,440
2028	<u>407</u>
Total lease payments	7,727
Less present value discount	<u>(706)</u>
Total lease obligations	<u>\$ 7,021</u>

(13) SUBSEQUENT EVENTS

Management has evaluated subsequent events through June 19, 2025, which is the date the financial statements were available to be issued.

(14) PRIOR PERIOD ADJUSTMENT

During the period, management elected to correct a long-standing policy whereby pro-rated periods of revenue recognition and certain prepaid assets had not historically been recognized. As a result of applying a correction to the accounting treatment for these financial elements a prior period adjustment is made to correct the prior period accounting application. Adjustment for prior period recognition of prepaid assets totaled \$21,482 and adjustment for prior period pro-rated revenue and sales tax obligations totaled \$63,068 for a total prior period adjustment to increase net position by \$84,550 from the 2022 operating period.

(15) DEPARTMENT LITIGATION CONTINGENCY

During the period, the Department was named as a party to legal actions by participating consecutives, municipalities who have entered into water purchase agreements with the Department for their respective communities. Such litigation involves action concerning the water purchase rates assessed by the Department based on an externally generated water rate study and implementation guidance as required by Arkansas Act 605 of 2021. Management has engaged legal representation to defend its position and believes that it has valid standing in the action. While the litigation is an ongoing action, management has not assessed the impact of potential outcomes and as a result of this action no liability has been determined.

CITY OF BOONEVILLE

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Waterworks and Sewer Commission
City of Booneville
Booneville, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Booneville Water and Sewer Department (a component unit of the City of Booneville, Arkansas), which comprise the statement of net position as of December 31, 2024, and the related statements of income and expenses and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 19, 2025.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Booneville Water and Sewer Department's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Booneville Water and Sewer Department's internal control. Accordingly, we do not express an opinion on the effectiveness of Booneville Water and Sewer Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Booneville Water and Sewer Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
