#### Independent Auditors' Report

Cabot Water and Wastewater Commission Cabot, Arkansas

#### **Opinions**

We have audited the accompanying financial statements of Cabot Water and Wastewater Commission as of and for the year ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Cabot Water and Wastewater Commission's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the Cabot Water and Wastewater Commission as of December 31, 2022 and 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cabot Water and Wastewater Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management of the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cabot Water and Wastewater Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Cabot Water and Wastewater Commission Cabot, Arkansas Page Two

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, and design and perform audit procedures responsive to those risks.
   Such procedures include examining, on a test basis, evidence regarding the amounts and
  disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cabot Water and Wastewater Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluate the overall presentation of the financial statements.

Cabot Water and Wastewater Commission Cabot, Arkansas Page Three

• Conclude whether, in our judgment, there are conditions or events, considered in aggregate, that raise substantial doubt about Cabot Water and Wastewater Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control - related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Cabot Water and Wastewater Commission's basic financial statements. The accompanying supplementary schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Cabot Water and Wastewater Commission Cabot, Arkansas Page Four

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 21, 2023 on our consideration of Cabot Water and Wastewater Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Cabot Water and Wastewater Commission's internal control over financial reporting and compliance.

Certified Public Accountants

Cobb and Endie, Std.

June 21, 2023

This section presents management's analysis of the financial condition and activities of the Cabot WaterWorks (the Utility) for the year ended December 31, 2022. Cabot WaterWorks operates under the direction of the Cabot Water and Wastewater Commission, which assumed operation of the Cabot Water and Wastewater Department from the City of Cabot effective January 1, 2006.

#### **Financial Highlights**

Management believes Cabot WaterWorks' financial condition is stable. The Utility is within its debt covenants and financial policies and guidelines set by the board. The following are key financial highlights:

- Total assets and deferred outflows of resources at year-end were \$85,609,046 and exceeded liabilities and deferred inflows of resources in the amount of \$76,273,947, an increase of \$1,793,205 from 2021. Total assets at December 31, 2021 amounted to \$84,314,686 and exceeded liabilities in the amount of \$74,481,642, an increase of \$1,504,665 from 2020.
- Operating revenue for 2022 amounted to \$6,358,237. This was an increase of \$50,242, or 0.8% from 2021, for which the operating revenue of \$6,307,995 represented an increase of \$277,708, or 4.6% from 2020.
- Operating expenses in 2022 were \$6,597,251, an increase of \$551,821 or 9.1% from 2021.
   For 2021, the operating expenses of \$6,045,430, a decrease of \$218,770, or 3.5% from 2020.
- Net operating income(loss) was \$(239,014), in 2022 and \$262,565 in 2021, representing a net earnings decrease in 2022 of \$481,579 from 2021. For 2021, net operating income increased by \$496,458 from 2020.

#### **Overview of Annual Financial Report**

Management's Discussion and Analysis (MD&A) serves as an introduction to the basic financial statements and supplementary information. The MD&A represents management's examination and analysis of Cabot WaterWorks' financial condition and performance. Summary financial statement data, key financial and operational indicators used in the Utility's strategic plan, budget, bond resolutions and other management tools were used for this analysis.

The financial statements include a statement of net position; a statement of revenues, expenses, and changes in net position; a statement of cash flows; and notes to the financial statements. The statement of net position presents the financial position of the Utility on an accrual historical cost basis. While the statement of net assets provides information about the nature and amount of resources and obligations at year-end, the statement of activities presents the results of the business activities over the course of the fiscal year, as well as information as to how the net assets changed during the year.

All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. The statement of cash flow presents changes in cash and cash equivalents, resulting from operational, financing and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event, or when an obligation arises, or depreciation of capital assets.

The notes to the financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Utility's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any. Supplementary information comparing the budget to actual expenses is provided.

The Utility adopted Government Accounting Standard Board (GASB) 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27 during fiscal year ended December 31, 2015. GASB Statement 68 established accounting and financial reporting standards for employers, including reporting of the net pension asset or liability on the statement of net position, and deferred inflows and outflows associated with investment, economic and demographic gains and losses associated with pension plans. GASB Statement 68 also provides guidance related to the calculation of pension expense.

#### **Summary of Organization and Business**

The Utility provides retail water and wastewater collection and treatment service to customers within the corporate limits of Cabot, Arkansas.

The facilities of the Utility include water and sewage treatment plants acquired or contracted at a cost of \$105.6 million.

The Utility operates under the direction of the Cabot Water and Wastewater Commission, which assumed the operations of its predecessor, the Cabot Water and Wastewater Department in January 2006.

The operating and capital expenditures are incurred to repair, replace, or extend existing service facilities to meet customer service requirements, as well as to meet EPA requirements. The operating expenses are funded by customer revenue, and the acquisition and construction of capital assets are funded by water and sewer revenue bonds.

#### **Financial Analysis**

The financial statements from pages 9 through 13 and other selected information listed below serve as the key financial data and indicators for management, monitoring, and planning. Comments regarding budget-to-actual variances and year-to-year variances are included in each section by the name of the statement or account.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) General Information

Cabot WaterWorks (the Utility) provides water and/or sewer services to residential, farming, and commercial operations in the City of Cabot (the City) and outlying areas. The Utility is operated by the Cabot Water and Wastewater Commission, which took over the operations of the City of Cabot Water and Wastewater from the City of Cabot effective January 1, 2006. Accordingly, beginning balances for Cabot WaterWorks consist of assets and liabilities transferred in from the City of Cabot Water and Wastewater Department. Under the direction of the Cabot Water and Wastewater Commission, the Utility operates autonomously from the City of Cabot (the City); however, it remains a component of the City. As a municipality, Cabot WaterWorks is not subject to income tax. The accompanying financial statements have been prepared only for the reporting entity of the Cabot WaterWorks, which operates as an enterprise fund of the City of Cabot. The accompanying financial statements do not purport to disclose other activities of the City of Cabot; and, accordingly, any other funds have been excluded from the reporting entity.

#### (b) Basis of Accounting

The financial statements of the Utility are prepared in accordance with generally accepted accounting principles (GAAP), as established for the Governmental Accounting Standards Board (GASB). Accordingly, the Utility uses the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred.

#### (c) Cash and Cash Equivalents

For purpose of the statement of cash flows, the Utility considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

#### (d) Investments

Investments are stated at fair value and consist of certificates of deposit with original maturities in excess of three months when acquired.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (e) Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Details of accounts receivable and the related valuation account as of December 31, 2022 and 2021 are more fully explained in Note 3.

#### (f) Inventory

Inventory consists of parts and supplies and is valued at lower of cost or market using the first-in, first-out (FIFO) method.

#### (g) Restricted Assets

Restricted assets consist of cash and cash equivalents which are restricted by ordinance of the City of Cabot and bond requirements. Restricted assets are further described in Note 4.

#### (h) Capital Assets

Purchased property, plant and equipment is stated at cost. Depreciation is computed by the straight-line method over the following estimated useful lives:

Water Treatment, Storage, and	
Distribution Facilities	40-50 years
Wastewater Treatment Plant	25 years
Wastewater Collection Lines	50 years
Buildings	25-50 years
Furniture, Equipment, and Vehicles	3-10 years

#### (i) Contributed Assets

Contributed assets are recorded at estimated fair value at the time of receipt or based on cost of construction. Contributions generally include water and wastewater transmission lines constructed by developers or other customers who receive approval to connect to the Utility's water supply, treatment, and wastewater collection and distribution systems.

#### NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (CONTINUED)

#### (j) Unamortized Bond Issuance Costs

Costs associated with the issuance of bonds are reported as current period expenses.

#### (k) Compensated Absences

It is the Utility's policy to permit employees to accumulate earned, but unused vacation and sick pay benefits. A liability for vacation and sick pay is accrued as it is earned by Utility employees.

#### (l) Accrued Sludge Removal

The Utility accrues on a current basis expenses that will be incurred for sustaining a sludge removal program on an ongoing basis. No provision to this accrual was required for the years ended December 31, 2022, and December 31, 2021.

#### (m) Deferred Outflows of Resources

Deferred outflows of resources represent a decrease of net position that applies to future periods. Therefore, these items will not be recognized as an expense or expenditure until a future period.

#### (n) Deferred Inflows of Resources

Deferred inflows of resources represent an increase of net position that applies to future periods. Therefore, these items will not be recognized as revenue until a future period.

#### (o) Leases

In June of 2017, the Governmental Accounting Standards Board Issued GASB Statement No. 87, *Leases*. This Statement affects accounting and financial reporting by state and local governments for leases and is effective for fiscal years beginning after June 15, 2021. This Statement impacts governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset; and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Utility's implementation of this pronouncement resulted in no impact on the current year or prior year financial statements.

#### NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (CONTINUED)

#### (p) Pensions

The Government Accounting Standards Board (GASB) issued the following three statements which became effective for the fiscal year ended December 31, 2015: Statement no. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement no. 27, Statement no. 69, Government Combinations and Disposals of Government Operations, and Statement no. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement no. 68. Management has determined that Statement no. 69 does not affect the Utility. Statements no. 68 and no. 71 established standards of accounting and financial reporting for defined benefit pensions and defined contribution pensions. Details of the effect of these statements are further discussed in Note 9.

#### (q) Revenue Recognition

Operating revenues include revenues derived from the sale of water, from providing sewer service, and from other activities closely related to providing water and sewer service.

Revenues for water and sewer charges are recorded when billed to customers; billings are based on monthly meter readings. The Utility accrues revenue for services rendered but not billed at the end of the year; accounts receivable as reported on the Statement of Net Position includes an estimate of charges for services provided but unbilled at year end.

#### (r) Basis for Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### NOTE 2: CASH AND CASH EQUIVALENTS

A reconciliation of cash per the statement of cash flows to the statements of net position as of December 31, 2022 and 2021 are as follows:

		<u>2022</u>		
	<u>J</u>	<u>Inrestricted</u>	Restricted	<u>Total</u>
Cash at Beginning of Year	\$	5,942,794	\$ 2,487,936	\$ 8,430,730
Net Increase (Decrease)		628,794	53,952	 682,746
Total Cash at End of Year	\$	6,571,588	\$ 2,541,888	\$ 9,113,476
		<u>2021</u>		
	Ī	<u>Inrestricted</u>	Restricted	<u>Total</u>
Cash at Beginning of Year	\$	6,592,226	\$ 2,299,668	\$ 8,891,894
Net Increase (Decrease)		(649,432)	 188,268	(461,164)
Total Cash at End of Year	\$	5,942,794	\$ 2,487,936	\$ 8,430,730

Custodial Credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Utility's deposit policy for custodial credit risk requires compliance with the provisions of state law. Arkansas law requires collateralization of all municipal deposits by federal depository insurance (FDIC) and qualified pledged securities consisting of obligations of the U.S. Treasury and U.S. agencies.

Included in the Utility's total cash balances of \$9,113,476 and \$8,430,730 at December 31, 2022 and 2021, respectively, are deposits with financial institutions of \$9,204,401 at December 31, 2022 and \$8,480,452 at December 31, 2021. These deposits were fully covered by either FDIC insurance or appropriate collateralization at these respective dates.

#### NOTE 3: ACCOUNTS RECEIVABLE, TRADE

Accounts receivable at December 31, 2022 and 2021 consisted of the following:

#### Trade Receivables

		<u>2022</u>	2021
Trade Receivables, Current	\$	1,006,855	\$ 1,073,453
Trade Receivables, Past Due		45,829	48,686
Total	_	1,052,684	1,122,139
Allowance for Uncollectibles, Beginning of Year		(22,986)	(19,915)
Bad Debt Recoveries		20,282	22,911
Provision of Bad Debt Expense		(21,392)	 (25,982)
Allowance for Uncollectibles, End of Year		(24,096)	 (22,986)
Accounts Receivable, Net of Allowance for Uncollectibles	\$	1,028,588	\$ 1,099,153

#### NOTE 4: <u>RESTRICTED ASSETS</u>

Restricted assets include cash and cash equivalent accounts maintained as required under the terms of an ordinance for system improvements and debt service funds maintained as required under the terms of revenue bonds ordinances and cash held in escrow by fiscal agent.

Restricted assets at December 31, 2022 and 2021, are as follows:

Total Restricted Assets	\$ 2,541,888	\$ 2,487,936
Cash with Fiscal Agent	 160,939	 161,564
System Improvements Account	2,378,973	2,324,396
Bond Funds	\$ 1,976	\$ 1,976
	<u>2022</u>	<u>2021</u>

### NOTE 5: <u>CAPITAL ASSETS</u>

Capital assets as of December 31, 2022, and 2021 consisted of the following components of utility plant in service:

	2022			
	Beginning			Ending
	<b>Balance</b>	<b>Additions</b>	Retirements	Balance

Total Accumulated Depreciation	33,465,363	2,745,791	152,717	36,058,437
Capital Assets, Net	\$ 73,161,317	\$ 617,891	\$ 845	\$ 73,778,363

Depreciation expense for the years ended December 31, 2022 and 2021 amounted to \$2,825,982 and \$2,745,791, respectively.

#### NOTE 6: SANITATION BILLINGS

The Utility bills and collects for trash collection services provided by the City of Cabot. The Utility submits payments directly to the City of Cabot.

Since the Utility functions only in an agency capacity, such collections and remittances are not reflected in the statement of activities of the Utility. At December 31, 2022 and 2021, balances of \$138,511 and \$147,105, respectively, were due to the City of Cabot.

#### NOTE 7: INDEBTEDNESS

The Utility is obligated for the original debt service of \$278,454 of City of Cabot, Arkansas Water and Sewer Revenue Bonds which were originally issued on April 25, 2001, to finance certain improvements to the wastewater system. These bonds are obligations of the City payable solely from wastewater revenues and secured by a mortgage lien on utility plant in service. On December 1, 2020, the outstanding balance of \$110,864 was refinanced as described in the accompanying detail of net change in indebtedness.

On January 13, 2005, the City entered into a Bond Purchase Agreement with the Arkansas Soil and Water Conservation Commission (the Commission) and the Arkansas Development Finance Authority (the Authority) for the sale of its \$8,000,000 City of Cabot, Arkansas 2.25% Water and Sewer Revenue Bond (the Bond). The Bond was issued for the primary purpose of financing the planning, design, construction, and rehabilitation of the water system. The Bond is secured by a pledge of water revenues and a mortgage lien on utility plant in service, subordinate to the lien on the Bond described in the preceding paragraph. Proceeds from the Bond were disbursed to, and recorded by, the Utility on a draw basis as costs were incurred during the construction period of the project, with the final disbursement occurring June 28, 2008. On December 1, 2020, the outstanding balance of \$2,960,730 was refinanced as described in the accompanying detail of net change in indebtedness.

#### NOTE 7: INDEBTEDNESS (CONTINUED)

On August 8, 2008, the City entered into a Bond Purchase Agreement with the Arkansas Soil and Water Conservation Commission (the Commission) and the Arkansas Development Finance Authority (the Authority) for the sale of its \$13,000,000 City of Cabot, Arkansas 2.75% Water and Sewer Revenue Bond (the Bond). The Bond was issued for the primary purpose of financing the planning, design, construction, and rehabilitation of the water system.

The Bond is secured by a pledge of water revenues and a mortgage lien on utility plant in service, subordinate to the lien on the Bond described in the preceding paragraph. Proceeds from the bond were disbursed to, and recorded by, the Utility on a draw basis as costs were incurred during the construction period of the project. In the year ended December 31, 2013, the Utility, having drawn approximately 8.3 million of the original \$13,000,000, requested a revision of the original debt service schedule, and in December 2012, the bond issue was revised to \$7,091,943. On December 1, 2020, the outstanding balance of \$4,161,097 was refinanced as described in the accompanying detail of net change in indebtedness.

### NOTE 7: <u>INDEBTEDNESS</u> (CONTINUED)

Net changes in total indebtedness for the year ended December 31, 2022 are as follows:

		2022

	\$ 5,394,177	\$ 6,244	\$	179,359	\$	5,579,780

#### NOTE 8: CONTRACT WITH CENTRAL ARKANSAS WATER

In order to provide a sustainable solution for meeting future demand for water, the Cabot WaterWorks signed a contract with Central Arkansas Water (CAW) to secure a long-term source of water. Pursuant to the terms of this contract, the Utility committed to install a new two-million-gallon storage tank at the current facility (Phase I), to improve the existing distribution system (Phase II), and to construct a transmission line to connect the Utility's water facilities with CAW (Phase III). At December 31, 2020, Phase I, II, and III were complete and had been placed in service, and work on Phase III was completed in 2011. Total costs of approximately \$25,568,379 are included in capital assets as of December 31, 2022 and 2021, respectively.

In addition to the above improvements required of the Utility, the terms of the contract specify that CAW must make certain improvements to allow the Utility access to its water supply, including expansion of CAW's existing distribution system and construction of a new meter station. Once the Utility and CAW have satisfactorily completed the improvements specified in the contract, the Utility is committed to purchase a minimum of 300,000 (up to a maximum of 9,000,000) gallons from CAW each day for a period of twenty years, with options to renew for ten years.

### NOTE 9: DEFINED BENEFIT PENSION PLAN

GASB Statement no. 68 established new standards of accounting and financial reporting for measuring and recognizing pension liabilities, deferred inflows and outflows of resources, and expenses, effective for the fiscal year ended December 31, 2015. Details of the effect of these statements are discussed in detail below:

#### Arkansas Public Employees Retirement System (APERS) Plan Description

The Utility participates in a cost-sharing multiple-employer pension plan, administered by the Arkansas Public Employees Retirement System (APERS). APERS is a cost-sharing, multiple-employer, defined benefit plan which covers all State employees who are not covered by another authorized plan. The plan was established by the authority of the Arkansas General Assembly with the passage of Act 177 of 1957. The costs of administering the plan are paid out of investment earnings. The general administration and responsibility for the proper operation of the system is vested in the nine members of the Board of Trustees of the Arkansas Public Employees Retirement System (the Board). Membership includes three state and three non-state employees, all appointed by the Governor, and three ex-officio trustees, including the Auditor of the State, the Treasurer of the State and the Director of the Department of Finance and Administration.

#### Benefits Provided

Benefit provisions are set forth in Arkansas Code Annotated, Title 24, Chapters 5 and 6 and may only be amended by the Arkansas General Assembly. APERS provides retirement, disability and death benefits. Retirement benefits are determined as a percentage of the member's highest 3 – year average compensation times the member's years of service. The percentage used is based upon whether a member is contributory or non-contributory as follows:

Contributory, prior to 7/1/2005	2.07%
Contributory, on or after 7/1/2005,	2.03%
but prior to 7/1/2007	
Contributing on or after 7/1/2007	2.00%
Non – Contributory	1.72%

Members are eligible to retire with a full benefit under the following conditions:

- (a) At age 65 with 5 years of service,
- (b) At any age with 28 years actual service,
- (c) At age 60 with 20 years of actual service if under the old contributory plan (prior to July 1, 2005), or
- (d) At age 55 with 35 years of credited service for elected or public safety officials

#### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN (CONTINUED)</u>

#### Benefits Provided (Continued)

Members may retire with a reduced benefit at age 55 with at least 5 years of actual service or at any age with 25 years of service. Members are eligible for disability benefits with 5 years of service. Disability benefits are computed as an age and service benefit, based on service and pay at disability. Death benefits are paid to a surviving spouse as if the member had 5 years of service and the monthly benefit is computed as if the member had retired and elected the Joint & 75% Survivor option. A cost – of – living adjustment of 3% of the current benefit is added each year.

#### Contributions

Contribution requirements are set forth in Arkansas Code Annotated, Title 24, Chapter 4. The contributions are expected to be sufficient to finance the costs of benefits earned by members during the year and make a level payment that, if paid annually over a reasonable period of future years, will fully cover the unfunded costs of benefit commitments for services previously rendered (A.C.A. 24-2-701(a)). Members who began service prior to July 1, 2005 are not required to make contributions to APERS. Members who began service on or after July 1, 2005 are required to contribute 5% of their salary. Employees are required to contribute at a rate established by the Board of Trustees of APERS based on an actuary's determination of a rate required to fund the plan (A.C.A 24-2-701(C)(3)). Employers contributed 15.32% of compensation for the fiscal year ended June 30, 2020. In some cases, an additional 2.5% of member and employer contributions are required for elected officials. Cabot WaterWorks contributed 15.32% of compensation for fiscal years ended December 31, 2022 and 2021, respectively.

Utility contributions for the years ending December 31, 2022 and 2021 were \$205,681 and \$205,338 and are equal to the required contribution for the year. On February 19, 2002, the City of Cabot approved Ordinance No. 10 to establish a deferred compensation plan and authorize the Executive Committee of the Arkansas Municipal League to serve as the Trustee of the plan. Employees of the utility may elect to defer their compensation subject to annual limits. The City remits the employee contribution to the Trustee monthly.

#### NOTE 9: DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### **APERS Fiduciary Net Position**

Detailed information about APERS's fiduciary net position is available in the separately issued APERS Financial Report available at http://www.apers.org/annualreports.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions

At December 31, 2022, Cabot WaterWorks reported a liability of \$2,244,795 for its proportionate share of the net pension liability. The collective Net Pension Liability was measured as of June 30, 2022, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. Each employer's proportion of the Net Pension Liability was based on the employer's share of contributions to the pension plan relative to the total contributions of all participating employers. Cabot WaterWorks' proportion was .08325% and .08719% for June 30, 2022 and 2021, respectively.

For the years ended December 31, 2021 and 2020, Cabot WaterWorks recognized a pension expense of \$(21,752) and \$(118,832) respectively. At December 31, 2022, Cabot WaterWorks reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between expected and					
actual experience	\$	53,883	\$	(27,103)	
Changes of Assumptions		473,543		-	
Net difference between projected					
and Actual Investment Earnings on

Contributions and Share of					
Contributions		199,616		(1,052)	
Utility Contributions Made					
subsequent to the measurement					
date		102,840			
Total	\$	829,882	\$	(28,155)	

#### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN</u> (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions (Continued)

\$102,840 reported as deferred outflows of resources related to pensions resulting from Utility contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the financial statements as follows:

2023 \$ (195,015) 2024 \$ (136,153) 2025 \$ (37,474) 2026 \$ (330,245) 2027 Thereafter \$ -

#### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN</u> (CONTINUED)

**Actuarial Assumptions** 

The total pension liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method Entry Age Normal

Amortization Method Level of Percent of Payroll, Closed

Remaining Amortization Period 25 years

Asset Valuation Method

4-year smoothed market; 25% corridor

Actuarial Assumptions:

Investment Rate of Return 7.15%

Inflation 3.25% wage inflation, 2.5% price

inflation

Salary Increases 3.25% - 9.85% including inflation

Retirement Age Experience-based table of rates that are

specific to the type of eligibility

condition.

Mortality Table

Based on PR-2006 Healthy Annuitant benefit weighted generational mortality tables for males and females. Mortality rates are multiplied by 135% for males and 125% for females and are adjusted

for fully generational mortality improvements using Scale MP-2017.

Average Service Life of All Members 3.9676

#### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN</u> (CONTINUED)

#### Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates are arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2021, are summarized in the table below:

. ON TO TERM

		LONG-TERM
	TARGET	EXPECTED REAL
ASSET CLASS	<b>ALLOCATION</b>	RATE OF RETURN
Broad Domestic Equity	37%	6.22%
International Equity	24%	6.69%
Real Estate	16%	4.81%
Absolute Return	5%	3.05%
Domestic Fixed	18%	0.57%
Total	100%	
•	·	
Total Real Rate of Retur	n	4.93%
Plus: Price Inflation-Act	ually Assumption	2.50%
Net Expected Return		7.43%

#### Discount Rate

A single discount rate of 7.15% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.15%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# CABOT WATERWORKS NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

#### NOTE 9: <u>DEFINED BENEFIT PENSION PLAN</u> (CONTINUED)

# Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents Cabot WaterWorks' proportionate share of the net pension liability using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

#### Sensitivity of Discount Rate

1% Lower	Dis	count Rate	1	% Higher
(6.15%)	(7.15%)			(8.15%)
\$ 2,004,868	\$	670,215	\$	(432,022)

#### NOTE 10: RISK MANAGEMENT

The Utility has purchased insurance policies from the Arkansas Municipal League for various risks of loss related to torts; theft, damage or destruction of assets; errors or omissions; injuries to employees; or natural disasters. Payments and premiums for these policies are recorded as expenses of the Utility. Insurance settlements have not exceeded insurance coverage in any of the past three years. There were no significant changes in coverage compared to the prior year.

#### NOTE 11: RISKS AND UNCERTAINTIES

In February 2020, the COVID-19 virus began spreading in the United States, including areas in which the Utility operates. Business continuity and social activities have been severely impacted as government and citizens take significant and unprecedented measures to mitigate the consequences of the epidemic. Management has carefully monitored the situation and evaluated its options during this time. Although the effect of the outbreak is expected to be temporary, there is considerable uncertainty about its outcome, and the impact and duration cannot be reasonably estimated at this time.

#### NOTE 12: SUBSEQUENT EVENTS

Cabot WaterWorks did not have any recognized or nonrecognized subsequent events occur after December 31, 2022, the date of the statement of the financial statements. Subsequent events and transactions have been evaluated for potential recognition or disclosure through June 21, 2023, the date the financial statements were available to be issued.

# CABOT WATERWORKS NOTES TO SCHEDULE OF GOVERNMENTAL ASSISTANCE FOR THE YEAR ENDED DECEMBER 31, 2022

#### NOTE 1: GENERAL

The accompanying schedule of governmental assistance presents the activity of the federal financial assistance program of the Cabot WaterWorks.

#### NOTE 2: BASIS OF ACCOUNTING

The accompanying schedule of expenditures of governmental assistance is presented using the basis of accounting described in Note 1 to Cabot WaterWorks' financial statements.

#### NOTE 3: PURPOSE OF FUNDS RECEIVED

Funds received under Cabot WaterWorks' participation in the State Revolving Fund Program are used in construction related activities involving publicly-owned treatment works and/or developing a nonpoint source pollution control program.

#### NOTE 4: RELATIONSHIP TO FINANCIAL STATEMENTS

Proceeds from issuance of debt are included in the statements of cash flows in Cabot WaterWorks' financial statements. Bonds payable of \$5,309,981 at December 31, 2022 are included in Note 7 to Cabot WaterWorks' financial statements.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Cabot WaterWorks Commission Cabot, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Cabot WaterWorks, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Cabot WaterWorks' basic financial statements, and have issued our report there on dated June 21, 2023.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Cabot WaterWorks' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cabot WaterWorks' internal control. Accordingly, we do not express an opinion on the effectiveness of Cabot WaterWorks' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Cabot WaterWorks Commission Page Two

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Cabot WaterWorks' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion of the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
