Independent Auditors' Report

City Council
City of Des Arc, Arkansas
Des Arc, Arkansas

Opinion

We have audited the accompanying financial statements of the business-type activities of Des Arc Water and Sewer System as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Des Arc Water and Sewer System's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Des Arc Water and Sewer System as of December 31, 2022 and 2021, and the respective changes in financial position and, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Des Arc Water and Sewer System and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Des Arc Water and Sewer System's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Des Arc Water and Sewer System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in aggregate, that raise substantial doubt about Des Arc Water and Sewer System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 7 and 30 be presented to supplement the basic financial statements. Such information is the

responsibility of management and, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Des Arc Water and Sewer System's basic financial statements. The accompanying supplementary schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 1, 2024 on our consideration of Des Arc Water and Sewer System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Des Arc Water and Sewer System's internal control over financial reporting and compliance.

DES ARC WATER AND SEWER SYSTEM
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED DECEMBER 31, 2022

This section presents management's analysis of the financial condition and activities of the Des Arc Water and Sewer System (the System) for the year ended December 31, 2022.

Financial Highlights

Management believes Des Arc Water and Sewer System's financial condition is stable. The System is within its debt covenants and financial policies and guidelines set by the City Council. The following are key financial highlights.

- Total assets and deferred outflows of resources at year-end were \$3,285,839 and exceeded liabilities in the amount of \$2,004,066, a decrease of 4.0% from 2021. Total assets and deferred outflows at the end of 2021 were \$3,421,736 and exceeded liabilities in the amount of \$2,094,110, a decrease of 2.1% from 2020.
- Operating revenue was \$1,015,013 in 2022. This was an increase of \$119,531 or 13.4% from 2021. Operating revenue for 2021 was \$895,482, which was an increase of \$40,821, or 4.4%, from 2020.
- Operating expenses before depreciation increased \$186,438, or 27.6%, from 2021. In 2021, operating expenses before depreciation decreased \$36,752, or 5.2%, from the prior year.

Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to the basic financial statements and supplementary information. The MD&A represents management's examination and analysis of Des Arc Water and Sewer System's financial condition and performance. Summary financial statement data, key financial and operational indicators used in the System's strategic plan, budget, bond resolutions, and other management tools were used for this analysis.

The financial statements include a statement of net position; a statement of revenue, expenses, and changes in net position; a statement of cash flows; and notes to the financial statements. The statement of net assets presents the financial position of the System on an accrual historical cost basis. While the statement of net position provides information about the nature and amount of resources and obligations at year-end, the statement of revenue, expenses, and changes in net position presents the results of the business activities over the course of the fiscal year, as well as information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. The statement of cash flow presents changes in cash and cash equivalents, resulting from operational, financing and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event, when an obligation arises, or depreciation of capital assets.

DES ARC WATER AND SEWER SYSTEM
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED DECEMBER 31, 2022

Overview of Annual Financial Report (Continued)

The notes to the financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the System's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any. Supplementary information comparing the budget to actual expenses is provided.

The System adopted Government Accounting Standard Board (GASB) 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27* during fiscal year ended December 31, 2015. GASB Statement 68 established accounting and financial reporting standards for employers, including reporting of the net pension asset or liability on the statement of net position, and deferred inflows and outflows associated with investment, economic and demographic gains and losses associated with pension plans. GASB Statement 68 also provides guidance related to the calculation of pension expense.

Summary of Organization and Business

The System provides retail water and wastewater collection and treatment service to approximately customers within the city limits of Des Arc, Arkansas.

The facilities of the System include water and sewage treatment plants acquired or contracted at a cost of \$7.1 million.

The System operates under the direction of the City Council of the City of Des Arc.

The operating and capital expenditures are incurred to repair, replace, or extend existing service facilities to meet customer service requirements, as well as to meet EPA requirements. The operation expenses are funded by customer revenue, and the acquisition and construction of capital assets are funded by sewer revenue bonds.

Financial Analysis

The comparative financial statements from pages 8 through 12 and other selected information listed below serve as the key financial data and indicators for management, monitoring, and planning. Comments regarding budget-to-actual variances and year-to-year variances are included in each section by the name of the statement or account.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) General Information

The Des Arc Water and Sewer System (the System) is a component unit of the City of Des Arc, Arkansas (the City). The System provides water and/or sewer services to the residential and commercial operations in the city of Des Arc. These financial statements are prepared from the books and records of the Des Arc Water and Sewer System. These financial statements are not intended to present fairly the financial position of the City of Des Arc, Arkansas, and the results of its operations and the cash flows of its proprietary and similar trust fund types in conformity with generally accepted accounting principles. Transactions with the City of Des Arc are more fully described in Note 9.

(b) Basis of Accounting

The System utilizes the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred.

(c) Cash and Cash Equivalents

Deposits (cash and certificates of deposit) are carried at cost, which approximates fair value. For the purpose of the statements of cash flows, the System considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

(d) Investments

Investments are stated at fair value.

(e) Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts.

Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Details of accounts receivable and the related valuation account as of December 31, 2022 and 2021 are more fully explained in Note 4.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (f) Inventory
Inventory is calculated at cost, utilizing the cost of the last item purchased for that group as unit cost.
- (g) Restricted Assets
Restricted cash consists of checking accounts, certificates of deposit, and investments, restricted to use as indicated by its fund title.
- (h) Capital Assets
Purchased capital assets are stated at cost. Depreciation is computed by the straight-line method over the following estimated useful lives:

Waterworks and Sewer Plant	10-40 1/3 years
Operating Equipment	3-10 years
Office Building	20 years
Furniture and Fixtures	5-10 years

Details of changes in the capital assets accounts for the years ended December 31, 2022 and 2021, respectively, are more fully summarized in Note 6.

- (i) Contributed Assets
Contributed assets are recorded at estimated fair value at the time of receipt or based on cost of construction.
- (j) Unamortized Bond Issuance Costs
Costs associated with the issuance of bonds are reported as current prepaid expenses.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Revenue Recognition

The accounts receivable and revenue recognized are based on meter readings by System personnel. The meter readings are made at various times of the month, and approximately twenty days of water consumption during any month remain unbilled at the end of the month.

(l) Basis for Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(m) Government Accounting Standards Board (GASB) Statement no. 68

The GASB issued the following three statements which became effective for the fiscal year ended December 31, 2015: Statement no. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement no. 27, Statement no. 69, Government Combinations and Disposals of Government Operations, and Statement no. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement no. 68. Management has determined that Statement no. 69 does not affect the Des Arc Water and Sewer System. Statements no. 68 and no. 71 established standards of accounting and financial reporting for defined benefit pensions and defined contribution pensions. Details of the effect of implementing these statements are discussed in detail in footnote 8.

 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 2: CASH AND CASH EQUIVALENTS

A reconciliation of cash per the statement of cash flows to the statements of net assets as of December 31, 2022 and 2021, respectively, follows:

	<u>2022</u>		
	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>
Cash at Beginning of Year	\$ 468,956	\$ 246,690	\$ 715,646
Net Increase (Decrease)	<u>(64,807)</u>	<u>1,017</u>	<u>(63,790)</u>
Cash at End of Year	<u>\$ 404,149</u>	<u>\$ 247,707</u>	<u>\$ 651,856</u>
	 <u>2021</u> 		
	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>
Cash at Beginning of Year	\$ 452,943	\$ 245,495	\$ 698,438
Net Increase (Decrease)	<u>16,013</u>	<u>1,195</u>	<u>17,208</u>
Cash at End of Year	<u>\$ 468,956</u>	<u>\$ 246,690</u>	<u>\$ 715,646</u>

The System's funds are combined with the departmental bank accounts of the City of Des Arc in determining the appropriateness of collateralization from financial institutions.

The Utility's deposit policy for custodial credit risk requires compliance with the provisions of state law. Arkansas law requires collateralization of all municipal deposits by federal depository insurance (FDIC) and qualified pledged securities consisting of obligations of the U.S. Treasury and U.S. agencies.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 2: CASH AND CASH EQUIVALENTS (CONTINUED)

Included in the Utility’s total cash balances of \$651,953 and \$715,968 at December 31, 2022 and 2021, respectively, are deposits with financial institutions which are categorized as to credit risk as follows:

	<u>2022</u>	
	<u>Carrying Amount</u>	<u>Bank Balance</u>
Insured (FDIC and Collateralized)	\$ 651,856	\$ 651,953
Uninsured, Uncollateralized	-	-
Total	<u>\$ 651,856</u>	<u>\$ 651,953</u>
	 <u>2021</u>	
	<u>Carrying Amount</u>	<u>Bank Balance</u>
Insured (FDIC and Collateralized)	\$ 715,646	\$ 715,968
Uninsured, Uncollateralized	-	-
Total	<u>\$ 715,646</u>	<u>\$ 715,968</u>

NOTE 3: INVESTMENTS

All of the System’s investments carry the explicit guarantee of the U.S. Government. The Utility does not have a specific policy to manage its exposure to fair value losses arising from increasing interest rates.

Investments are categorized as follows to give an indication of the level of credit risk assumed by the System at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the System or by its agent in the System’s name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker’s or dealer’s trust department or agent in the System’s name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent but not in the System’s name. All of the System’s investments at December 31, 2022 are categorized as Category 1.

 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 7: LONG-TERM DEBT

Long-term debt at December 31, 2022 and 2021 consisted of the following bonds payable:

	<u>2022</u>	<u>2021</u>
1. Water System Revenue Bonds	\$ 788,171	\$ 833,846
2. Sewer System Revenue Bonds	<u>187,582</u>	<u>199,147</u>
Subtotal	975,753	1,032,993
Less Current Maturities	<u>60,266</u>	<u>57,240</u>
	<u>\$ 915,487</u>	<u>\$ 975,753</u>

On November 1, 2004, the City issued \$1,331,070 in Capital Improvement Revenue Bonds for the Water System Project. Annual payments are \$90,094 with interest at a rate of 5.4%. The City also issued \$334,021 in Capital Improvement Revenue Bonds for the Sewer System Project. Annual payments are \$20,398 with interest at 4.5%. These two bond issues totaled \$1,665,091 for 2004.

These proceeds, which were held in trust by a fiscal agent at December 31, 2021 and 2020 (as explained in Note 5), are used to finance the expansion of the System's utility plant.

 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN

GASB Statement No. 68, adopted for the fiscal year ended December 31, 2015, established standards of accounting and financial reporting for defined benefit pensions and defined contribution pensions. Details of the effect of implementing these statements are discussed in detail below:

Arkansas Public Employees Retirement System (APERS) Plan Description

The System participates in a cost-sharing multiple-employer pension plan, administered by the Arkansas Public Employees Retirement System (APERS). APERS is a cost-sharing, multiple-employer, defined benefit plan which covers all State employees who are not covered by another authorized plan. The plan was established by the authority of the Arkansas General Assembly with the passage of Act 177 of 1957. The costs of administering the plan are paid out of investment earnings. The general administration and responsibility for the proper operation of the system is vested in the nine members of the Board of Trustees of the Arkansas Public Employees Retirement System (the Board). Membership includes three state and three non-state employees, all appointed by the Governor, and three ex-officio trustees, including the Auditor of the State, the Treasurer of the State and the Director of the Department of Finance and Administration.

Benefits Provided

Benefit provisions are set forth in Arkansas Code Annotated, Title 24, Chapters 5 and 6 and may only be amended by the Arkansas General Assembly. APERS provides retirement, disability and death benefits. Retirement benefits are determined as a percentage of the member's highest 3 – year average compensation times the member's years of service. The percentage used is based upon whether a member is contributory or non-contributory as follows:

Contributory, prior to 7/1/2005	2.07%
Contributory, on or after 7/1/2005, but prior to 7/1/2007	2.03%
Contributory, on or after 7/1/2007	2.00%
Non – Contributory	1.72%

Members are eligible to retire with a full benefit under the following conditions:

- (a) At age 65 with 5 years of service,
- (b) At any age with 28 years actual service,
- (c) At age 60 with 20 years of actual service if under the old contributory plan (prior to July 1, 2005), or
- (d) At age 55 with 35 years of credited service for elected or public safety officials

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Benefits Provided (Continued)

Members may retire with a reduced benefit at age 55 with at least 5 years of actual service at age 55 or at any age with 25 years of service. Members are eligible for disability benefits with 5 years of service. Disability benefits are computed as an age and service benefit, based on service, and pay at disability. Death benefits are paid to a surviving spouse as if the member had 5 years of service and the monthly benefit is computed as if the member had retired and elected the Joint & 75% Survivor option. A cost – of – living adjustment of 3% of the current benefit is added each year.

Contributions

Contribution requirements are set forth in Arkansas Code Annotated, Title 24, Chapter 4. The contributions are expected to be sufficient to finance the costs of benefits earned by members during the year and make a level payment that, if paid annually over a reasonable period of future years, will fully cover the unfunded costs of benefit commitments for services previously rendered (A.C.A. 24-2-701(a)). Members who began service prior to July 1, 2005 are not required to make contributions to APERS. Members who began service on or after July 1, 2005 are required to contribute 5% of their salary. Employers are required to contribute at a rate established by the Board of Trustees of APERS based on an actuary's determination of a rate required to fund the plan (A.C.A. 24-2-701(c)(3)). The System contributed 15.32% of compensation from January 1, 2022 until December 31, 2022. The System's contributions for the year ended December 31, 2022 amounted to \$38,623 and were equal to the required contribution for the year.

APERS Fiduciary Net Position

Detailed information about APERS's fiduciary net position is available in the separately issued APERS Financial Report available at <http://www.apers.org/annualreports>.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions

At December 31, 2022, the System reported a liability of \$264,495 for its proportionate share of the net pension liability. The collective Net Pension Liability was measured as of June 30, 2022, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The Utility's proportion of the Net Pension Liability was based on the employer's share of contributions to the pension plan relative to the total contributions of all participating employers. The Utility's proportion was .009826%.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and
Deferred Inflows of Resources to Pensions (Continued)

For the year ended December 31, 2022, the System recognized a pension expense of \$22,066. At December 31, 2022, the System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 6,360	\$ (3,199)
Changes of Assumptions	-	-
Net difference between projected and Actual Investment Earnings on Pension Plan Investments	55,892	-
Change in Proportion and Differences between Employer Contributions and Share of Contributions	17,002	(21,012)
Contributions Made subsequent to the measurement date	20,232	-
Total	<u>\$ 99,486</u>	<u>\$ (24,211)</u>

\$20,232 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the financial statements as follows:

2023	\$ 16,748
2024	\$ 4,837
2025	\$ (5,520)
2026	\$ 38,978
2027	\$ -
Thereafter	\$ -

DES ARC WATER AND SEWER SYSTEM
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level of Percent of Payroll, Closed
Remaining Amortization Period	25 years
Asset Valuation Method	4-year smoothed market; 25% corridor
Actuarial Assumptions:	
Investment Rate of Return	7.15%
Inflation	3.25% wage inflation, 2.50% price inflation
Salary Increases	3.25 - 9.85% including inflation
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition
Mortality Table	Based on the RP-2006 Healthy Annuitant benefit weighted generational mortality tables for males and females. Mortality rates are multiplied by 135% for males and 125% for females and are adjusted for fully generational mortality improvements using Scale MP-2017.
Average Service Life of All Members	3.7989

DES ARC WATER AND SEWER SYSTEM
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates are arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2021 are summarized in the table below:

<u>ASSET CLASS</u>	<u>TARGET ALLOCATION</u>	<u>LONG-TERM EXPECTED REAL RATE OF RETURN</u>
Broad Domestic Equity	37%	6.22%
International Equity	24%	6.69%
Real Assets	16%	4.81%
Absolute Return	5%	3.05%
Domestic Fixed	18%	0.57%
Total	100%	
Total Rate of Return		4.93%
Plus: Price Inflation - Actuarial Assumption		<u>2.50%</u>
		<u>7.43%</u>

Discount Rate

A single discount rate of 7.15% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.15%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

DES ARC WATER AND SEWER SYSTEM
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the System’s proportionate share of the net pension liability using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

Sensitivity of Discount Rate		
1% Lower	Discount Rate	1% Higher
<u>6.15</u>	<u>7.15</u>	<u>8.15</u>
<u>\$ 421,226</u>	<u>\$ 264,495</u>	<u>\$ 135,908</u>

NOTE 9: RELATED PARTY TRANSACTIONS

As mentioned in Note 1, the System is a component unit of the City of Des Arc. During the year ended, December 31, 2022 and 2021, the System was involved with the City of Des Arc and its related entities in the following matters:

- (a) The System’s water sales of \$477,740 for the year ended December 31, 2022 included \$97,227 in sales to North Prairie County Water Extension System, which is also a component unit of the City of Des Arc. Additionally, during the year ended December 31, 2022, the North Prairie County Water Extension System reimbursed the Des Arc Water and Sewer System \$31,926 for connection expense and billing services. In the year ended December 31, 2021, the System’s water sales of \$490,578 included \$93,168 in sales to the North Prairie County Water Extension System; and it received \$29,923 in reimbursements from North Prairie County Water Extension System for connection expense and billing services.
- (b) The System rented space from the City of Des Arc for \$500 per month and reimbursed the City General Fund \$6,000 each year in the years ended December 31, 2022 and 2021, respectively.

DES ARC WATER AND SEWER SYSTEM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 10: RISK MANAGEMENT

The System has purchased insurance policies from the Arkansas Municipal League as well as commercial carriers for various risks of loss related to torts; theft, damage or destruction of assets; errors or omissions; injuries to employees; or natural disasters. Payments and premiums for these policies are recorded as expenses of the System. Insurance settlements have not exceeded insurance coverage in any of the past three years. There were no significant changes in coverage compared to the prior year.

NOTE 11: RISKS AND UNCERTAINTIES

In February 2020, the COVID-19 virus began spreading in the United States, including areas in which the System operates. Business continuity and social activities have been severely impacted as government and citizens take significant and unprecedented measures to mitigate the consequences of the epidemic. Management has carefully monitored the situation and evaluated its options during this time. Although the effect of the outbreak is expected to be temporary, there is considerable uncertainty about its outcome, and the impact and duration cannot be reasonably estimated at this time.

NOTE 12: SUBSEQUENT EVENTS

The Des Arc Water and Sewer System did not have any recognized or nonrecognized subsequent events occur after December 31, 2022, the date of the statement of net position. Subsequent events and transactions have been evaluated for potential recognition or disclosure through July 1, 2024, the date the financial statements were available to be issued.

Report on Internal Control Over Financial Reporting and on Compliance and on Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

City Council
City of Des Arc, Arkansas
Des Arc, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the City of Des Arc Water and Sewer System as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the City of Des Arc Water and Sewer System's basic financial statements, and have issued our report thereon dated July 1, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Des Arc Water and Sewer System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Des Arc Water and Sewer System's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Des Arc Water and Sewer System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Des Arc Water and Sewer System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is intended solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
