Independent Auditor's Report

Water and Sewer Committee City Council of Danville Danville, Arkansas

Opinion

We have audited the accompanying financial statements of the City of Danville Water and Sewer System which comprise the statements of net position as of December 31, 2023 and 2022 and the related statements of income and expense and changes in net position and cash flows for the years then ended and the related notes to the financial statements.

As discussed in note 1, the financial statements present only the City of Danville Water and Sewer System and are not intended to present fairly the net position of the City of Danville, Arkansas, and the results of its operations and cash flows of its proprietary fund types and nonexpendable trust funds, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the City of Danville Water and Sewer System, as of December 31, 2023 and 2022, and changes in net position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of City of Danville Water and Sewer System and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

City Council of Danville Page 2

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Danville Water and Sewer System's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we

- * Exercise professional judgment and maintain professional skepticism throughout the audit.
- * Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- * Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Danville Water and Sewer System internal control. Accordingly, no such opinion is expressed.

- * Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- * Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Danville Water and Sewer System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Danville Water and Sewer System's basic financial statements. The supplemental information, disclosed in compliance with requirements for audits of United States Department of Agriculture Rural Development Borrowers' Accounting Records is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2024 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulation, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

November 14, 2024

Notes to Financial Statements

December 31, 2023 and 2022

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Nature of Operations

The Danville Water and Sewer System (the "System") provides water and sewer services to local, residential, commercial and industrial customers in the City of Danville, Arkansas and water services to surrounding communities, including the cities of Belleville, Havana, Northeast Yell County Water Association and to the Tri-County Regional Water Distribution District.

The System is a municipally operated system and is governed by the Danville City Council of the City of Danville, Arkansas. The System is a proprietary fund type used to account for activities conducted for the public (enterprise fund). The accompanying financial statements are intended to present only the financial position and results of operations of the Danville Water and Sewer System and not the City of Danville, Arkansas.

(b) Basis of Accounting and Presentation

The financial statements of the System have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units in the United States. The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles for governments within the United States.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed primarily through user charges. The System applies all Governmental Accounting Standards Board (GASB) pronouncements as well as the Financial Accounting Standards Board (FASB) pronouncements issued on or before November, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

In accordance with GAAP, the System's operations are accounted for as a business type activity. In this regard, the System follows the accrual basis of accounting, whereby income is recognized when it is earned and expenses are recorded when they are incurred, irrespective of when paid.

Notes to Financial Statements, Continued

(c) Property, Plant and Equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

Vehicles and other moveable equipment	5-10 years
Water plant and related line infrastructure	5-50 years
Sewer plant and related infrastructure	7-50 years
City hall building	40 years

Depreciation expense for the years ended December 31, 2023 and 2022 was \$640,172 and \$606,183, respectively. Expenditures for maintenance and repairs are expensed as incurred; replacements and betterments that extend the useful lives of property and equipment are capitalized. Property and equipment used by the System are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. In the event that facts and circumstances indicate an impairment exists, an evaluation of recoverability would be performed.

Management evaluates the condition of property, plant, and equipment on a continuing basis and has accumulated reserves it believes are adequate to fund major repairs and replacements. Amounts accumulated in reserve funds may not be adequate to meet all future needs for major repairs and replacements. If additional funds are needed, the System has the right, subject to regulatory authority, to increase user rates, obtain additional bond funding, or delay repairs and replacements until funds are available.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(e) Regulatory Environment

The quality of water emitted from the sewer treatment plant is regulated by the Environmental Protection Agency and the Arkansas Health Department. The quality of water furnished to customers is subject to the requirements of the Environmental Protection Agency under the Safe Drinking Water Act and the Arkansas Health Department. The System may be assessed penalties should a violation occur with respect to regulatory requirements.

(f) Income Tax

The System is a municipally owned system that is exempt from federal and state income tax.

Notes to Financial Statements, Continued

(g) Receivables

All receivables are reported at their gross value and where appropriate are reduced by the estimated portion that is expected to be uncollectible. The System assesses late fees on accounts determined to be past due but does not assess finance charges on such accounts. The System collects a customer deposit when initiating service. The customer deposit may be applied to outstanding account balances at the termination of service. Management evaluates the collectibility of customer balances based on the aging of accounts and knowledge of the recurring customer relationships. Customer balances not expected to be collected are reserved as doubtful and charged to expense.

(h) Cash

The System defines cash for purposes of the statement of cash flows as cash on hand and in banks, including restricted cash.

(i) Fair Value of Financial Instruments

The carrying value of cash in banks, accounts receivable, accounts payable and accrued expenses, approximate fair value due to the relatively short maturity of these instruments. The carrying value of bonds payable approximates fair value because those financial instruments bear interest at rates that approximate current market rates for bonds with similar maturities and credit quality.

(j) Revenue Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606) and related amendments ("ASC 606"), which outlined a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and superseded most current revenue recognition guidance, including industry-specific guidance. ASC 606 is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services. ASC 606 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgements and changes in judgements and assets recognized from costs incurred to fulfill a contract.

The System recognizes revenue when performance obligations are satisfied. Generally, the System's performance obligations are satisfied and revenue is recognized on a monthly basis after the service has been performed. Because customers are invoiced at the time service has

Notes to Financial Statements, Continued

been performed and the System's right to consideration is unconditional at the time, the System recognizes revenue at the time service is rendered. When new customers are set up, the System assesses a security deposit. Security deposits are refundable unless applied to final billings for the customer. Security deposits are recorded as customers' deposits.

(2) RESTRICTED CASH

The terms of Resolution number 2-64 (authorizing the issuance of the waterworks and sewer system refunding bonds) and ordinances Number 130, 134, and 150 require designated funds to be maintained with restrictions placed on their uses.

At December 31, 2023 and 2022, the System had restricted cash shown as follows:

		2023	2022
Reserve accounts required by the Water			
and Sewer Revenue Bonds:			
Depreciation fund	\$	118,126	130,702
Water and Sewer Revenue Bond Fund	-	456,482	570,348
	\$	574,608	701,050

(a) Depreciation Fund

Bond ordinances require that a minimum of 3% of the gross revenue from the System be deposited in this fund to be used for the purpose of paying for necessary replacements or repairs to the water and sewer facilities or for the cost of economically justifiable extensions to the distribution and collection systems. The required transfers for the years ended December 31, 2023 and 2022, were \$56,867 and \$57,976, respectively. Beginning in 2020, management elected to transfer funds to this account at a 5% rate. The actual transfers to this fund from the Revenue Fund for the years ended December 31, 2023 and 2022 were \$99,352 and \$96,626 excluding interest earned, respectively. Interest earned totaled \$506 and \$238 for 2023 and 2022, respectively.

(b) Water and Sewer Revenue Bond Fund

Bond ordinances require a reserve for contingencies be maintained in this fund. Transfers from the revenue fund to this fund are to be made monthly in payments sufficient to meet the next maturities of principal and interest. In addition to monthly transfers, dedicated sales tax remittances are collected and deposited into the fund. The monies in this fund are pledged for the purpose of paying interest and principal

Notes to Financial Statements, Continued

of the bonds. Fund activity for the years ended December 31, 2023 and 2022 are as follows:

	2023	2022
Reserve balance - beginning of year	\$ 570,348	677,642
Funding transfers	350,000	300,000
Interest income	3,514	2,197
Fund expenditures	(467,380)	(409,491)
Reserve balance - end of year	<u>\$ 456,482</u>	570,348

(3) METER DEPOSIT FUND

The meter deposit fund is a custodial account for meter deposits paid to the System by water customers.

	-	2023	2022
Cash in fund	\$	68,684	65,639
Customer meter deposits	-	(69,345)	(65,885)
Meter deposit cash funds over (under) liability	\$	(661)	(246)

Other than normal recurring deposit transactions, no transfers were made during 2023 and 2022.

(4) ACCOUNTS RECEIVABLE

The accounts receivable due for water and sewer services at December 31, 2023 and 2022 are as follows:

	2023	2022
Current (0-30 days)	\$ 116,678	172,461
Past due (30-60 days)	30,792	8,093
Past due (over 60 days)	18,386	17,080
Total accounts receivable	165,856	197,634
Allowance for doubtful accounts	(18,000)	(16,000)
Net accounts receivable	\$ 147,856	181,634

(5) INSURANCE

Company	Description	Coverage	Amount
Arkansas Fidelity Bond Trust Fund	All elected city officials, employees and councilmen	Blanket Fidelity Bond	\$ 300,000
Arkansas Municipal League	Automobile liability Workmen's compensation Buildings, equipment and vehicles	2	5,000/50,000 Statutory 7,442,290

(Continued)

Notes to Financial Statements, Continued

(6) LONG-TERM NOTES AND BONDS PAYABLE

Long-term notes payable collateralized by pledge of water and sewer revenue consisted of the following at December 31, 2023 and 2022:

	Interest Rate	2023	2022
United States Department of Agriculture Rural Development, 2002 bonds, due in annual installments of \$14,544, including interest. The bonds mature in April, 2040.	4.750%	\$ 165,043	171,579
Arkansas Natural Resources Commission, 2019 series no interest bonds, due in annual installments of \$25,661, beginning October, 2021 including 0.5% service fee. The bonds mature in April, 2031.	0.000%	316,702	365,952
Arkansas Natural Resources Commission, 2014 bonds, due in annual installments of \$24,449, beginning June, 2016 including interest. The bonds mature in June, 2034.	3.000%	226,214	243,362
United States Department of Agriculture Rural Development, 2006 bonds, due in monthly installments of \$6,465, including interest. The bonds mature in December, 2046.	4.125%	1,149,528	1,179,028
United States Department of Agriculture Rural Development, 2007 bonds, due in monthly installments of \$9,482, including interest. The bonds mature in December.			
2046.	4.125%	1,685,973	1,729,241
Notes payable due within one year		3,543,460 149,832	3,689,162 145,696
		\$ 3,393,628	3,543,466

(Continued)

Notes to Financial Statements, Continued

Maturities of long-term debt for each of the years ending December 31, 2024 through 2029 and thereafter are as follows:

Year ending December 31,	Principal	Interest	Total
2024	\$ 149,832	131,544	281,376
2025	154,130	127,246	281,376
2026	158,595	122,781	281,376
2027	163,233	118,143	281,376
2028	168,054	113,321	281,375
2029 and thereafter	2,749,616	1,062,478	3,812,094

Interest expense incurred for 2023 and 2022 totaled \$135,307 and \$138,904, respectively.

(7) EMPLOYEE PENSION PLAN

The City of Danville has established a SEP (Simplified Employee Pension) Plan for all full time employees. Monthly contributions are made to each employee's individual IRA account by the city equal to 6% of applicable wages. During 2023 and 2022, \$40,445 and \$25,688, respectively, was contributed to the plan.

(8) CONCENTRATIONS

The System services consumers in Danville, Arkansas and surrounding communities. Poultry processing plants and other surrounding communities and associations accounted for approximately 86% and 85% of consumption in the years ended December 31, 2023 and 2022, respectively.

All funds are deposited in financial institutions insured by the FDIC. Deposits in excess of the insured amount total approximately \$581,000 of which \$774,000 was collateralized by a pledge of Federally backed securities by the financial institution.

The System had one major supplier in 2023 and 2022 that accounted for approximately 73% and 93%, respectively, of the cost of chemicals used in the water and sewer treatment process. Management reviews its vendor relationships on a regular basis to assess quality and continuity of service in maintaining a reliable source of necessary supplies and materials. Other vendors are available if the current vendors are unable to supply necessary treatment chemicals.

(9) REFUNDABLE ADVANCE

During 2015, the System received a grant to install fluoridating equipment in its water treatment plant. The terms of the grant include a provision whereby if the System elects to voluntarily discontinue the use of such equipment within ten years of the date of the grant agreement, a proportional balance of the grant will be refundable to the grantor. Management has elected to recognize the grant over the ten year conditional period based on the date the equipment is placed in service. Management placed the equipment in service during 2016.

Notes to Financial Statements, Continued

Grant funds received in advance totaled \$118,250. During 2023 and 2022, the advance recognized as grant income totaled \$34,610 and \$34,610, respectively.

(10) OTHER OPERATING EXPENSES

Other operating expenses include the following:

	 2023	2022
Legal, computer services and accounting	\$ 30,046	18,227
Lab and testing	18,575	8,990
Corps of Engineer fees	33,895	26,983
Permit application fees and consulting	569	61
Water and sewer consulting fees	20,020	65,180
Water - schools and meetings	4,156	4,767
Miscellaneous	 8,598	17,507
Total other expense	\$ 115,859	141,715

(11) CAPITAL CONTRIBUTIONS FROM CITY AND COMMUNITY

The System recognizes contributions to capital from the city of Danville and community entities that provide infrastructure support or benefit to the operations of the System. During 2023 and 2022, the City made contributions of capital to the system for infrastructure improvements and operations through direct support or from federal assistance program passthrough funding in the amount of \$178,435 and \$101,117, respectively. During 2022, a local commercial production entity provided infrastructure funding for increased system capacity improvements totaling \$50,000.

(12) RELATED PARTY TRANSACTION

During 2022, the System engaged a consultant to conduct a sales tax recovery evaluation. The engagement resulted in sales tax recoveries for both the System and the city. Consulting costs paid by the System on behalf of the city totaled \$615 in 2021. At December 31, 2023 the balance due to the System from the city totaled \$615.

(13) PROPERTY ABANDONMENT

During 2023, the System determined that one of its sewer equipment projects was determined to be ineffective and thus was abandoned during the period resulting in an abandonment loss totalling \$94,917.

(14) RECLASSIFICATION

Certain amounts reported in the prior year were reclassified to conform to the current year presentation.

(15) SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 14, 2024, which is the date the financial statements were available to be issued.

Supplemental Information

Years ended December 31, 2023 and 2022

WATER CONSUMPTION

Water consumption for the year ended December 31:

	2023	2022
Residential and small business	108,426,400	117,020,000
Cities of Belleville, Havana, NE Yell County Assn. &		
Tri County Water Dist.	344,466,900	349,287,700
State and county buildings	2,709,100	2,456,500
Poultry processing plants	312,529,400	312,839,000
Total water consumed	768,131,800	781,603,200

Cost of water production per thousand gallons consumed:

2023

Operating expenses Depreciation		divided by 768,131,800 gal. = divided by 768,131,800 gal. =	2.32 0.83 3.16	/ thousand / thousand / thousand
	\$ 2,423,333	2022		/ mousand
Operating expenses Depreciation	\$ 1,723,668 606,183	divided by 781,603,200 gal. = divided by 781,603,200 gal. =	2.21 0.78	/ thousand / thousand
Depreciation	\$ 2,329,851	arriada by 701,000,200 gai.	2.98	/ thousand

The water rate schedule for the operations of the water and sewer system is as follows for December 31, 2023 and 2022:

Water rates		2023 Per thousand Gallons	2022 Per thousand Gallons
First	2,000 gallons - minimum	\$11.72	11.72
Next	3,000 gallons	3.83	3.83
Next	5,000 gallons	3.29	3.29
Next	50,000 gallons	2.89	2.89
Next	140,000 gallons	2.74	2.74
Over	200,000 gallons	2.04	2.04
Industrial	Per 1,000 gallons	2.04	2.04
Wholesale	Per 1,000 gallons	1.95	1.95

Supplemental Information, Continued

The sewer rate schedule for the operations of the water and sewer system is as follows for December 31, 2023 and 2022:

		2023	2022	2022
		Per two thousand	Per two thousand	Per two thousand
Sewer rates	-	Gallons	Gallons beginning 9/1/22	Gallons to 8/31/22
First	2,000 gallons - minimum	15.00	\$15.00	\$10.00
Over	2,000 gallons	3.10	3,10	2.05

Sewer rates, through August 31, 2022, were assessed based on the average water usage registered by each customer during the November and December usage periods. That average was then used to establish a fixed charge for the operating period based on the noted fee structure identified above. Beginning September 1, 2022, the sewer rate is based on the monthly metered water usage based on the fee structure identified above.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Water and Sewer Committee City Council of Danville Danville, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Danville Water and Sewer System (a component unit of the City of Danville, Arkansas), which comprise the statement of net position as of December 31, 2023, and the related statements of revenues and expenses, changes in net position, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 14, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Danville Water and Sewer System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Danville Water and Sewer System's internal control. Accordingly, we do not express an opinion on the effectiveness of Danville Water and Sewer System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

City Council of Danville Page 2

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Danville Water and Sewer System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
