INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

To the Leola Water & Sewer System
Leola, AR

Management is responsible for the accompanying financial statements of Leola Water & Sewer System, which comprise the statement of assets, liabilities, and net position – cash basis as of December 31, 2022, and the related statement of cash receipts and cash disbursements for the year then ended, in accordance with the cash basis of accounting, and for determining that the cash basis of accounting is an acceptable financial reporting framework. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statement, nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Management has elected to omit substantially all of the disclosures ordinarily included in the financial statements prepared in accordance with the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about Leola Water & Sewer System's cash position, and results of operations – cash basis. Accordingly, these financial statements are not for those who are not informed about such matters.

Management has omitted the management's discussion and analysis and budgetary comparison schedule that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.
