INDEPENDENT AUDITOR'S REPORT

To the City Council of the
City of Mount Ida Water & Sewer Department

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the City of Mount Ida Water & Sewer Department, (the "Department"), a component unit of the City of Mount Ida, Arkansas, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position, the statement of revenues, expenses and changes in net position, and cash flows of the Department as of and for the years then ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Department and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Department's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Department's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Proportionate Share of Net Pension Liability and the Schedule of Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial

statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis and Budget to Actual Comparison required by accounting principles generally accepted in the United States of America to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who consider it to be an essential part of the financial reporting for placing the financial statements in an appropriate operational, economic or historical context. Our opinion on the financial statements is not affected by this missing information.

Supplementary Information and other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The accompanying Schedule of Operating Expenses is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2023 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Department's internal control over financial reporting and compliance.

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Water and Sewer Department (the “Department”) is a component unit of the City of Mount Ida, Arkansas. The Department is governed by a commission, which is appointed by the City Council. The Water Department provides water services to the City of Mount Ida and certain surrounding areas. The City Council approves the rate changes of the Department’s services. The debt of the Department is maintained in the name of the City of Mount Ida.

B. Fund Type

The Department is an enterprise fund, used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Basis of Accounting

The financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

Operating revenues and expenses are distinguished from other revenue (expense) items. Operating revenues and expenses generally result from providing services in connection with the principal ongoing operations of the Department. All revenues and expenses not meeting this definition are reported as other revenues (expenses) but remain a major component of the overall revenues and expenses.

In accordance with Governmental Accounting Standards Board Statement Number 62, the Department applies accounting standards in accordance with Governmental Accounting and Financial Reporting Standards which incorporates applicable Financial Accounting Standards Board and American Institute of Certified Public Accountants Pronouncements issued on or before November 30, 1989.

D. Use of Estimate

Management used estimates and assumptions in preparing these financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

E. Assets, Liabilities, and Net Position

Cash and Cash Equivalents

The Department considers all highly liquid investments with an original maturity of three months or less when purchased to be cash and cash equivalents. For the purpose of financial reporting, all demand accounts, savings accounts, cash on hand, certificates of deposits, and money market accounts are considered to be cash and cash equivalents.

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 1 (continued)

Accounts Receivable

Accounts receivable relate to water and sewer service billings and are shown net of an allowance for doubtful accounts. The allowance is based upon historical losses and a review of the past-due accounts. Credit extended to customers is generally uncollateralized. Accounts are due ten days after the billing date. Past-due accounts are charged a late fee penalty. Customers are required to make a deposit, and deposits can be offset against the receivable.

Fixed Assets

Fixed assets are recorded at cost, including interest incurred during the construction period. Contributed property is recorded at fair value at the date of contribution. Depreciation is recorded on each class of depreciable property utilizing the straight-line method over the estimated useful lives of the assets. The ranges of estimated useful lives are as follows:

Water Plant	20-40 years
Wells & Water Tanks	20-40 years
Buildings & Improvements	20-25 years
Vehicles & Equipment	5-10 years

The Department's capitalization policy states that capital assets are defined as assets with an estimated useful life of greater than one year and over \$1,000.

Deferred Outflow / Inflow of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources(expense) until then. The Department has qualifying items for reporting in this category. Deferred outflows of resources include those related to pension changes for the Department.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an increase to net position that applies to a future period and is recognized as an inflow of resources (revenue) until that time. The Department has qualifying items for reporting in this category. Deferred inflows of resources include those related to pension changes for the Department.

Pension

The Department maintains one cost-sharing, multiple employer, defined benefit retirement plan. The plan is sponsored by the Arkansas Public Employee Retirement System. For purposes of measuring the net pension asset or liability, deferred outflow of resources and deferred inflow of resources related to pension, and pension expense have been determined on the same basis as they are reported by the actuary. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the plan. Expenses of the plans, such as investment fees, trustee fees, and audit fees, are paid by the plan. However, certain administrative functions are performed by employees of the Department and are not reimbursed by the plan.

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 1 (continued)

Net Position Classifications

Invested in capital assets, net of related debt – consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – Consists of net assets with constraints placed on their use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments.

Unrestricted net position – All other net assets that do not meet the definition of “invested in capital assets, net of related debt” or “restricted.”

F. Date of Management’s Review

The Department evaluated its December 31, 2022 financial statements for subsequent events through December 6, 2023, the date the financial statements were available to be issued. The Department is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE 2 – CERTIFICATES OF DEPOSIT AND INVESTMENTS

Arkansas Code Annotated 19-1-501 outlines the eligible investments allowed by a municipality along with Certificates of Deposits when secured in compliance with Arkansas Code 19-8-202. Deposits in excess of Federal Deposit Insurance (FDIC) are required to be secured by qualified pledged securities allowed by the Code to mitigate custodial credit risk. Custodial credit risk is the risk that in the event of a bank failure a government’s deposits may not be returned to it.

The schedule below discloses the level of custodial credit risk assumed by the Department based upon how its deposits were insured or secured by pledged securities, or unsecured at December 31, 2022.

Category 1 – Insured FDIC or secured with securities held by the Department (or public trust) or by its agent in its name.

Category 2 – Uninsured but collateralized with securities held by the pledging financial institutions’ trust department in the Department’s name.

Category 3 – Unsecured and uncollateralized, or collateralized with securities held by the pledging institution, or by its trust department or agent in the Department’s name, or collateralized with no written or approved collateralized agreement.

The level of security for the Department’s bank deposits are as follows:

Depository	Total	Category 1	Category 2	Category 3
Bank A	\$ 630,675	\$ 250,000	\$ 380,675	\$ -
Bank B	147,691	147,691	-	-
Total	<u>\$ 778,366</u>	<u>\$ 397,691</u>	<u>\$ 380,675</u>	<u>\$ -</u>

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 2 (continued)

The amounts shown are bank ledger balances of the referenced bank's deposits and may differ from the Department's general ledger balances.

The Department has certain amounts of its cash accounts restricted at December 31, 2022 as follows:

Meter deposits	\$ 92,969
Debt reserve requirements	<u>249,328</u>
Total restricted cash	<u><u>\$ 342,297</u></u>

The debt reserve cash requirements are restricted for use of replacement of certain equipment securing the bonded indebtedness or for their repairs during the term of the debt and for the use of annual debt service payments for the Department's indebtedness. Customers' meter deposits are restricted for the use of refunding a departing customers' refund upon leaving the Department or for off-setting any amounts owed by the customer upon departure. It is the Department's policy to use other available cash for equipment replacement or repairs rather than the restricted amounts.

NOTE 3 – CHANGES IN FIXED ASSETS

	Balance December 31, 2021	Transfers	Additions	Disposals	Balance December 31, 2022
Water and sewer plants & lines	6,519,852	-	-	-	6,519,852
Furniture and fixtures	356,657	-	-	-	356,657
Vehicles	325,547	-	-	-	325,547
	<u>7,202,056</u>	-	-	-	<u>7,202,056</u>
Accumulated depreciation	<u>(2,816,860)</u>	-	<u>(213,295)</u>	-	<u>(3,030,155)</u>
	<u><u>\$ 4,385,196</u></u>	<u><u>\$ -</u></u>	<u><u>\$ (213,295)</u></u>	<u><u>\$ -</u></u>	<u><u>\$ 4,171,901</u></u>

NOTE 4 – LONG-TERM DEBT

Long-term debt consisted of the following at December 31, 2022:

Note payable to the USDA for the purchase of property and equipment, payable in 480 monthly installments of \$2,547, including principal and interest through August 2058; interest at 2.25%, secured by property and equipment	\$ 760,624
Note payable to the ANRC for the purchase of property and equipment, payable in annual installments of \$9,693, including principal and interest through June 2033; interest at 3.0%, secured by property and equipment	\$ 89,674
Note payable to the ANRC for the purchase of property and equipment, payable in annual installments of \$25,910, including principal and interest through June 2041; interest at 0.5%, secured by property and equipment	\$ 436,325

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 4 (continued)

Annual debt service requirements to maturity based on current interest rates for long-term debt are as follows for the years ending December 31:

	Principal	Interest
2023	\$ 70,539	\$ 21,564
2024	71,319	20,784
2025	72,114	19,989
2026	72,924	19,179
2027	73,749	18,353
2028-2032	291,548	79,242
2033-2037	102,388	63,002
2038-2042	104,038	51,660
2043-2047	116,414	39,284
2048-2052	130,262	25,436
Thereafter	181,328	10,013
	\$ 1,286,623	\$ 368,506

NOTE 5 – PENSION

Plan Description

The following brief description of the Arkansas Public Employees Retirement System (APERS) is provided for general information purposes only. Participants should refer to Arkansas Code Annotated, Title 24 for more complete information.

APERS is a cost-sharing, multiple-employer, defined benefit plan which covers all State employees who are not covered by another authorized plan. The plan was established by the authority of the Arkansas General Assembly with the passage of Act 177 of 1957. The costs of administering the plan are paid out of investment earnings.

The general administration and responsibility for the proper operation of the System is vested in the nine members of the Board of Trustees of the Arkansas Public Employees Retirement System (the Board). Membership includes three state and three non-state employees, all appointed by the Governor, and three ex-officio trustees, including the Auditor of the State, the Treasurer of the State and the Director of the Department of Finance and Administration, and four additional board positions that were added in Act 686 of the 2021 State of Arkansas legislative session. All of these four positions are appointed by the State of Arkansas Legislature. Two of these positions represent retirees with one being appointed by the House of Representatives and the other appointed by the Senate. The other two positions represent retired law enforcement with one being appointed by the House of Representatives and the other by the Senate.

Benefits Provided

Benefit provisions are set forth in Arkansas Code Annotated, Title 24, Chapters 5 and 6 and may only be amended by the Arkansas General Assembly. APERS provides retirement, disability and death benefits. Retirement benefits are determined as a percentage of the member's highest 3-year average compensation times the member's years of service. The percentage used is based upon whether a member is contributory or non-contributory as follows:

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 5 (continued)

Contributory, prior to 7/1/2005	2.07%
Contributory, on or after 7/1/2005, but prior to 7/1/2007	2.03%
Contributory on or after 7/1/2007	2.00%
Non-Contributory	1.72%

Members are eligible to retire with a full benefit under the following conditions:

- at age 65 with 5 years of service,
- at any age with 28 years actual service,
- at age 60 with 20 years of actual service if under the old contributory plan (prior to July 1, 2005), or
- at age 55 with 35 years of credited service for elected or public safety officials.

Members may retire with a reduced benefit at age 55 with at least 5 years of actual service at age 55 or at any age with 25 years of service.

Members are eligible for disability benefits with 5 years of service. Disability benefits are computed as an age and service benefit, based on service and pay at disability. Death benefits are paid to a surviving spouse as if the member had 5 years of service and the monthly benefit is computed as if the member had retired and elected the Joint & 75% Survivor option. A cost-of-living adjustment of 3% of the current benefit is added each year. Several benefit changes were made in the 2021 legislative session. These changes only apply to newly hired employees on or after July 1, 2022. Act 370 made the final average compensation for the retirement benefit calculation to be the average of the five highest annual compensations. Act 366 made the annual cost-of-living adjustment to be the lesser of 3% or the percentage change in the Consumer Price Index.

Contributions

Contribution requirements are set forth in Arkansas Code Annotated, Title 24, Chapter 4. The contributions are expected to be sufficient to finance the costs of benefits earned by members during the year and make a level payment that, if paid annually over a reasonable period of future years, will fully cover the unfunded costs of benefit commitments for services previously rendered (A.C.A. 24-2-701(a)). Members who began service prior to July 1, 2005 are not required to make contributions to APERS. Members who began service on or after July 1, 2005 are required to contribute 5% of their salary. Act 365 of the 2021 regular legislative session put in place annual increases of .25% to this employee contribution rate beginning July 1, 2022 and continuing each year up to a maximum rate of 7%. Employers are required to contribute at a rate established by the Board of Trustees of APERS based on an actuary's determination of a rate required to fund the plan (A.C.A. 24-2-701(c)(3)). Employers contributed 15.32% of compensation for the fiscal year ended June 30, 2022. In some cases, an additional 2.5% of member and employer contributions are required for elected officials.

The Department pays for their portion of the pension plan to the City of Mount Ida based on the covered payroll percentage for the Department as compared to the City of Mount Ida. For the plan year, the allocation percentage for the Department is 70% of the covered payroll for the City of Mount Ida. Amounts below are allocated to the Department based on the allocation percentage.

APERS Fiduciary Net Position

Detailed information about APERS's fiduciary net position is available in the separately issued APERS Financial Report available at <http://www.apers.org/annualreports>.

NOTE 5 (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions

The collective Net Pension Liability of \$2,696,383,462 was measured as of June 30, 2022, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. Each employer's proportion of the Net Pension Liability was based on the employer's share of contributions to the pension plan relative to the total contributions of all participating employers.

Deferred outflows of resources and deferred inflows of resources related to pensions for your employer are as follows:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ 9,689	\$ (4,874)
Changes in proportion and differences between employer contributions and proportionate share of contribution	1,109	(28,630)
Changes of assumptions	-	-
Contributions subsequent to measurement date	25,805	-
Net difference between projected and actual earnings on pension plan investments	85,154	-
Total for City	121,757	(33,504)
Department pro-rata allocation	70%	70%
Total for Department	\$ 85,230	\$ (23,453)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in your financial statements as follows:

	2023	2024	2025	2026	2027	Thereafter
Total for City	\$ 3,151	\$ 1,367	\$ (1,456)	\$ (59,385)	\$ -	\$ -
Department pro-rata allocation	70%	70%	70%	70%	70%	70%
Total for Department	\$ 2,206	\$ 957	\$ (1,019)	\$ (41,570)	\$ -	\$ -

Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level of Percent of Payroll, Closed (Level Dollar, Closed for District Judges New Plan and Paid Off Old Plan and District Judges Still Paying Old Plan)
Remaining Amortization Period	25 years (7.6 years for District Judges New Plan/Paid Off Old Plan and 16 years for District Judges Still Paying Old Plan)

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2022

NOTE 5 (continued)

Asset Valuation Method	4-year smoothed market; 25% corridor (Market Value for Still Paying Old Plan)
Investment Rate of Return	7.15%
Inflation	3.25% wage inflation, 2.50% price inflation
Salary Increases	3.25 – 9.85% including inflation (3.25% - 6.96% including inflation for District Judges)
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition
Mortality Table	Based on RP-2006 Healthy Annuitant benefit weighted generational mortality tables for males and females. Mortality rates are multiplied by 135% for males and 125% for females and are adjusted for fully generational mortality improvements using Scale MP-2017.
Average Service Life of All Members	3.7989

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the table below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Broad Domestic Equity	37%	6.22%
International Equity	24%	6.69%
Real Assets	16%	4.81%
Absolute Return	5%	3.05%
Domestic Fixed	18%	0.57%
Total	100%	
Total Real Rate of Return		4.93%
Plus: Price Inflation- Actuary Assumption		2.50%
Net Expected Return		7.43%

NOTE 5 (continued)

Discount Rate

A single discount rate of 7.15% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.15%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the proportionate share of the Net Pension Liability using the discount rate of 7.15%, as well as what the Net Pension Liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

Sensitivity of Discount Rate			
	1% Lower 6.15%	Discount Rate 7.15%	1% Higher 8.15%
Total for City	\$ 641,754	\$ 403,665	\$ 207,102
Department pro-rata allocation	70%	70%	70%
Total for Department	<u>\$ 449,228</u>	<u>\$ 282,566</u>	<u>\$144,971</u>

NOTE 6 – RISK MANAGEMENT

The Department is exposed to various risks of loss related to theft of, damage to, and destruction of assets, errors and omissions, and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

NOTE 7 – DEPARTURE FROM GENERALLY ACCEPTED ACCOUNTING PROCEDURES

Management has elected to omit the Budget to Actual Comparison and the Management Discussion and Analysis of the Department from the financial statements which are required by GAAP.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the City Council of the
City of Mount Ida Water & Sewer Department

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of City of Mount Ida Water & Sewer Department (the "Department"), a component unit of the City of Mount Ida, Arkansas, which comprise the statement of net position, statement of revenues, expenses, and changes in net position, and statement of cash flows as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated December 6, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2022-001 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Department's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Department's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Department's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WATER & SEWER DEPARTMENT OF THE CITY OF MOUNT IDA, ARKANSAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended December 31, 2022

2022-001 - Segregation of Duties

Condition: The Department did not segregate financial accounting duties relating to initiating, receipting, depositing, disbursing, and recording cash transactions to sufficiently reduce the risks of fraud or error.

Criteria: Proper segregation of controls should be in place to provide reasonable assurance that fraud or error does not occur.

Cause: The Department has limited financial resources which prevent it from fully segregated financial accounting duties.

Effect: Without proper segregation of duties, opportunity for fraud or error exists.

Recommendation: The Department should evaluate its internal controls and segregate financial duties to the extent possible with the current staffing levels. The Department should consider additional oversight where segregation is not possible.

Management's Response: The Department will segregate financial duties to the extent possible with the current staffing levels.
