INDEPENDENT ACCOUNTANT'S COMPILATION REPORT

To the Mayor and Members of the City Council
Turrell Water and Sewer Department
Turrell, Arkansas 72384

Management is responsible for the accompanying financial statements of the Turrell Water and Sewer Department, which comprise the statement of assets, liabilities and net position – cash basis as of December 31, 2024 and the related statement of receipts and disbursements- cash basis for the year then ended in accordance with the cash basis of accounting and for determining that the cash basis of accounting is an acceptable financial reporting framework. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services, promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements. The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Management has omitted the management's discussion and analysis that the cash basis of accounting requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Management has elected to omit substantially all of the disclosures required by the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Entity's assets, liabilities, net position, receipts, and disbursements. Accordingly, the financial statements are not designed for those who are not informed about such matters.
